**Tournament of Appeals** Roy B. Flemming, 2004 Canada's Supreme Court decides cases with far reaching effects on Canadian politics and public policies When the Supreme Court sets cases on its agenda it exercises nearly unrestrained discretion and considerable public authority But how does the Court choose these cases in the first place From the several hundred requests for judicial review filed every year how and why do the justices pick some cases but not others for review *Tournament of Appeals* investigates the leave to appeal process in Canada and explores how and why certain cases win a place on the Court's agenda and others do not Taking the approach that the process mimics a sports tournament this study raises several vital questions For example is there an elite Supreme Court bar that routinely wins the tournament Do the Court's rules affect the tournament's outcomes Or does winning and losing reflect the resources of the parties As players in this tournament how do the judges play the game and how does it affect their votes to grant or deny judicial review Drawing from systematically collected information on the process applications and lawyers that has never before been used in studies of Canada's Supreme Court Roy B Flemming offers both a qualitatively and quantitatively based explanation of how Canada's justices grant judicial review The first of its kind this innovative study will draw the attention of lawyers academics and students in Canada as well as in the Commonwealth and European countries whose high courts share many features of the appeals process in Canada

**The UEFA European Football Championships** Jan Andre Lee Ludvigsen, Renan Petersen-Wagner, 2022-12-12 This book explores social and political issues and trends emerging around the UEFA European Football Championships. It presents a contemporary sociology of the European Championships, which despite its significance as a mega event, has been largely overshadowed by the Olympics and the FIFA World Cup in existing literature. At a time when both sport mega events and Europe are undergoing dramatic transformations, this book explores a range of case studies and important topics such as changing consumption patterns, new types of sport media, social media, environmental policies, and emergency politics, public opposition, and co-hosting. It also situates the European Championships within wider European projects and discourses of European identities, integration, and enlargement. Drawing on data from recent and historical European Championships and looking ahead to the next tournament in Germany in 2024, this book serves to open up new debates within the sociology of sport and the study of mega events. It is a timely and ground-breaking text which will resonate with students, academics, and readers who are interested in football, the sociology of sport, mega-events, digital sociology, European politics and culture, or sports business.
