The odysseys had separation initiation and return as their theme They prompted her to picture her own wild place and its attractions and she saw how a dreamer has an inner wild she goes to at night In that place while her other mental powers sleep her imagination is awake later she returns This process initiates her into new ways of seeing her day life On the heels of a decade of dream sharing and odysseys to Greece in 2012 Bonna went to art school Encouraged to revive childlike imaginings as part of a process of making art she discovered more ways to see Shared dreams travels to Greece and art school are the main threads in her story but mothering is also woven in Feminine figures appeared in Bonna s dreams and she learnt about the gods of Greek mythology who are feminine or masculine but sometimes ambiguous Over time with plenty to reflect on she grew to see her own mother in a new softer light The Mother seen as mythical mother gave her a fresh way to see mother daughter relationships and released her into a new time
