Three Windows On Eternity Exploring Evolution And Human Destiny:

Three Windows on Eternity Allerd Stikker, 2013-10-03 *Three Windows on Eternity* is an exploratory voyage past the frontiers of our knowledge and scientific understanding. It has led the author to inspirational insights about the role of the individual human being in the current phase of the evolutionary process. The author takes the reader on a journey through evolution from the Big Bang to the 21st century. Based on scientific research and personal observation, he argues and concludes that of the 13.5 billion years of evolution, the first 10 billion years, a so-called inorganic evolutionary period lasting from the Big Bang until the emergence of life, was irrefutably governed by a magnificent design. By design, he does not mean intelligent design, but a state resulting from the eight fundamental constants of nature that emerged in the first nanoseconds following the birth of the universe. That state is a question of personal interpretation inspired by religious belief or otherwise. The story of evolution presented in this book can raise awareness and inspiration in today's younger generations as they try to realize a controlled transition within the next 25 years, thus avoiding an uncontrolled overshoot-collapse scenario. In this respect, we are playing with time. The author is convinced that many young people who will populate the world in that period are keen to learn from the new story of evolution and are eager to act and contribute to a constructive new phase in that evolution in the 21st century.

Three Windows on Eternity Allerd Stikker, 2013. With its compelling combination of science and spirituality, *Three Windows on Eternity* offers an eye-opening way to understand the relationship between consciousness and the universe beyond. Taking a very personal journey from the Big Bang to the 21st century, Allerd Stikker offers a unique interpretation of evolution, one that focuses on our inner perception and tries to restore coherence and hope in a seemingly divided and disintegrating world.

Beyond the Universe Allerd Stikker, 2023-10-28. Over the past millennia, humanity has continuously tried to find in the universe a picture of reality. This led, through inventions and discoveries, to an increasingly broader picture. However, as only measurable values were taken into account, this still is only part of the whole story. This essay makes a speculative attempt to visualise the ultimate reality by looking beyond the universe and to include non-measurable values. This approach could also be a way to repair the serious flaw that we, as humanity, appear to have become in the evolution process.

Sacred Mountains Allerd Stikker, 2014-10-01. From a pioneer in the ecological side of business strategy, a look at the effect Daoism is having on China's ecology. Author Allerd Stikker witnessed and actively participated in the Daoist resurgence in China together with the Alliance of Religions and Conservation (ARC). Here, Stikker shares his fascination for Daoism and explains how nature conservation is deeply rooted in its philosophy and practice. He tells the story of his cooperation with the ARC in helping Daoist masters build the first Daoist Ecology Temple in China and how this ecology movement has spread throughout China in recent years. He shares the joy he felt when the Chinese government picked up on this success and officially declared that Daoism should be restored as the heart of Chinese culture. This book is accompanied by a rich variety of unique photos, beautiful color illustrations by Dutch artist Rosa Vitalie, and contributions

from renowned Western and Chinese scholars including Martin Palmer head of ARC *Human Development from Middle Childhood to Middle Adulthood* Lea Pulkkinen, 2017-06-26 This seminal work focuses on human development from middle childhood to middle adulthood through analysis of the research findings of the groundbreaking Jyväskylä Longitudinal Study of Personality and Social Development JYLS The JYLS project which began in 1968 has generated extensive publications over many years but this is the first comprehensive summary that presents the conceptual framework the research design and methodology and the findings The study looks at the development over time of issues related to personality identity health anti social behavior and well being and is unparalleled in its duration intensity comprehensiveness and psychological richness The thorough synthesis of this study illustrates that there are different paths to adulthood and that human development cannot be described in average terms The 42 year perspective that the JYLS provides shows the developmental consequences of children's differences in socioemotional behavior over time and the great significance of children's positive socioemotional behavior for their further development until middle age Not only will the book be an invaluable tool for those considering research methods and analysis on large datasets it is ideal reading for students on lifespan courses and researchers methodologically interested in longitudinal research
