Thrice Greatest Hermes Volume I Prolegomena:

Thrice Greatest Hermes G. R. S. Mead, 2012-12-19 These volumes complete in themselves as a series of studies in a definite body of tradition are intended to serve ultimately as a small contribution to the preparation of the way leading towards a solution of the vast problems involved in the scientific study of the Origins of the Christian Faith They might thus perhaps be described as the preparation of materials to serve for the historic mythic and mystic consideration of the Origins of Christianity where the term mythic is used in its true sense of inner typical sacred and logic as opposed to the external processioning of physical events known as historic and where the term mystic is used as that which pertains to initiation and the mysteries The serious consideration of the matter contained in these pages will I hope enable the attentive reader to outline in his mind however vaguely some small portion of the environment of infant Christianity and allow him to move a few steps round the cradle of Christendom Though the material that we have collected has as to its externals been tested as far as our hands are capable of the work by the methods of scholarship and criticism it has nevertheless at the same time been allowed ungrudgingly to show itself the outward expression of a truly vital endeavour of immense interest and value to all who are disposed to make friends with it For along this ray of the Trismegistic tradition we may allow ourselves to be drawn backwards in time towards the holy of holies of the Wisdom of Ancient Egypt The sympathetic study of this material may well prove an initiatory process towards an understanding of that Archaic Gnosis

Thrice-Greatest Hermes G. R. S. Mead, 1906 This is the edition including all three books The so called Hermetic writings have been known to Christian writers for many centuries The early church Fathers Justin Martyr Tertullian Clement of Alexandria quote them in defense of Christianity Stobaeus collected fragments of them The Humanists knew and valued them They were studied in the sixteenth and seventeenth centuries and in modern times have again been diligently examined by many scholars G R S Mead has issued a translation of the whole body of extant literature with extended prolegomena commentary etc There is a wide difference of opinion as to the date at which this literature was produced Mead believes that some of the extant portions of it are at least as early as the earliest Christian writings while von Christ assigns them to the third Christian century and thinks that they show the influence of neo Platonism To affirm that they influenced New Testament usage would be hazardous but they perhaps throw some light on the direction in which thought was moving in New Testament times

Thrice-Greatest Hermes [volume 3] Hermes (Trismegistus.),1949 **Thrice-greatest Hermes** Hermes (Trismegistus.),George Robert Stow Mead,1906 **The Hermetic Link** Jacob Slavenburg,2012-04-01 Hermes is the Greek god of the Word of thought and magic the swift moving messenger of the Divine and guardian of souls in the Afterlife In Ancient Egypt he was the majestic god Thoth the Recorder the lord of measurement and science the brother husband of Isis In Rome he was of course Mercury flying through the Empyrean at the speed of idea by the aid of his winged helmet and boots In this broad survey of the Hermetic arts author Jacob Slavenburg brings an unparalleled depth of insight to the subject He examines the historical Hermetic literature and details its relevance to modern occultism from the symbolism of architecture and art to the mysteries of Freemasonry The heavenly mysteries of astrology are explored as are the healing arts which derive from the spirit of scientific inquiry embodied by Thoth Hermes Slavenburg examines the magical writings of the Greek papyri and their development into the contemporary magical practices of modern adepts He sheds light on the workings of alchemy and the esoteric philosophy to the world of modern chemistry and physics He explores the origin of evil and the realm of the afterlife and the Hermetic doctrines of reincarnation and karma In addition the author provides a wealth of biographical data on the magi of Hermetism from Ficino to Agrippa John Dee to Giordano Bruno **Thrice-Greatest Hermes Studies in Hellenistic Theosophy and Gnosis Being a Translation of the Extant Sermons and Fragments of the Trismegistic Literature, with Prolegomena, Commentaries and Notes** George Robert Stow Mead, But in the present century by the publication of Reitzenstein s *Poimandres* the whole subject has been placed on a different footing and brought into a clearer light Reitzenstein attacks the problem of the Trismegistic writings from an entirely objective historical philological and literary standpoint Being entirely emancipated from any theological preconceptions he is always careful to point out that his conclusions are based solely on critical research in the domain of philology proper he cannot however refrain at times from adding somewhat slyly that these results are of the deepest interest to the theologian indeed we might say highly embarrassing if the theologian happens to be a traditionalist The general scope of Reitzenstein s essay may be gathered from his sub title *Studies in Greek Egyptian and Early Christian Literature* Our Trismegistic writings form part of a large number of Greek written texts the remains of a once exceedingly extensive Hellenistic theological literature and by Hellenistic theology is meant the blending of Greek and Oriental religious thought and experience This Hellenistic theology was most strongly influenced by Egyptian conceptions and traditions The Egyptian religion is known to have spread itself

over the Hellenistic world and every scholar will at once recall to mind how many Greek writers have treated expressly of the Egyptian religion and how many passages in Greek literature refer to Egyptian beliefs as compared with the very few which treat of Babylonian Persian or even Syrian Nevertheless the remains of this Hellenistic theological literature have never been treated as a whole from the point of view of philology the cause of this has been the entire disregard of the subject by Christian theologians coupled with the grotesque grounds on which the consideration of the Hellenistic Egyptian religion is usually set aside one famous theologian lately going so far as to assert that the Egyptian worship was despised on all sides both by Jews and Greeks as the lowest depth of human superstition As then Egypt had a provably dominant position in Hellenistic literature so also must she have had in some sort a correspondingly strong influence on Hellenistic culture and consequently on the development of Hellenistic religious experience The evidence of this is afforded by the Early Christian literature We have therefore here in these Greek Egyptian and Early Christian documents the possibility of methodical work seeing that it is a question of the comparative study of two contemporaneous literatures moreover the language and typology of the Christian literature is bound to betray traces of the general Hellenistic theology of the time The study of Reitzenstein is thus a consideration of our Trismegistic literature as a whole and the analysis and comparison of two of the most typical sermons with other Hellenistic documents and with Early Christian writings This he does with praiseworthy and painstaking industry with great acumen and admirable scholarly equipment but his work is of no service to any but scholars and that too to scholars who are specialists It is a work bristling with technicalities of every description and crammed with untranslated texts Indeed Reitzenstein belongs to that school of philological purists who think it a loss of dignity to translate anything this is a very convenient convention and I myself have often wished that I could have availed myself of it when face to face with innumerable difficulties of translation
