s Adventures in Wonderland 1865 The themes and settings of Through the Looking Glass make it a kind of mirror image of Wonderland the first book begins outdoors in the warm month of May 4 May uses frequent changes in size as a plot device and draws on the imagery of playing cards the second opens indoors on a snowy wintry night exactly six months later on 4 November the day before Guy Fawkes Night uses frequent changes in time and spatial directions as a plot device and draws on the imagery of chess In it there are many mirror themes including opposites time running backwards and so on This is a high quality book of the original classic edition It was previously published by other bona fide publishers and is now finally back in print This is a freshly published edition of this culturally important work which is now at last again available to you Enjoy this classic work These few paragraphs distill the contents and give you a quick look inside The way Dinah washed her children s faces was this first she held the poor thing down by its ear with one paw and then with the other paw she rubbed its face all over the wrong way beginning at the nose and just now as I said she was hard at work on the white kitten which was lying quite still and trying to purr no doubt feeling that it was all meant for its good She had had quite a long argument with her sister only the day before all because Alice had begun with Let s pretend we re kings and queens and her sister who liked being very exact had argued that they couldn t because there were only two of them and Alice had been reduced at last to say Well YOU can be one of them then and I LL be all the rest She said afterwards that she had never seen in all her life such a face as the King made when he found himself held in the air by an invisible hand and being dusted he was far too much astonished to cry out but his eyes and his mouth went on getting larger and larger and rounder and rounder till her hand shook so with laughing that she nearly let him drop upon the floor And then the little sleeves were carefully rolled up and the little arms were plunged in elbow deep to get the rushes a good long way down before breaking them off and for a while Alice forgot all about the Sheep and the knitting as she bent over the side of the boat with just the ends of her tangled hair dipping into the water while with bright eager eyes she caught at one bunch after another of the darling scented rushes So she got up and walked about rather stiffly just at first as she was afraid that the crown might come off but she comforted herself with the thought that there was nobody to see her and if I really am a Queen she said as she sat down again I shall be able to manage it quite well in time
