*Through the South Seas with Jack London (Classic Reprint)* Martin Johnson, 2017-10-19 Excerpt from *Through the South Seas With Jack London*: Accounts of daredevil exploits have always been read with deep interest. One of the salient features of human nature is curiosity, a desire to know what is being said and done outside the narrow limits of one's individual experience or, in other words, to learn the modes of life of persons whose environment and problems are different from one's own environment and problems. To this natural curiosity, the book of travel is particularly gratifying. But when we add to the fact that such a narrative treats of races and conditions almost unknown to the inhabitants of civilised countries, the consideration that those voyageurs to whom the adventures fell are men and women already prominently before the public and so deserving of that public's special confidence, the interest and value of such a work will be seen to be extraordinarily enhanced.  Magellan entered the Pacific in 1521 Westerners entertained ideas of undiscovered oceans mighty continents and paradisa-  
 l islands at the far ends of the earth such ideas would have a long life and a deep impact in both the Pacific and the West With  
 the discovery of Tahiti in 1767 another powerful myth was added to this collection the noble savage For the first time  
 Westerners were confronted by a people who seemed happier than themselves This revolution in the human sciences was  
 accompanied by one in the natural sciences after Darwin s momentous visit to the Galapagos Islands The Pacific produced  
 other challenges for nineteenth century researchers on race and culture and for those intent on exporting their religions to  
 this immense quarter of the globe As the century wore on the region presented opportunities and dilemmas for the imperial  
 powers a process was accelerated by the Pacific War between 1941 and 1945 Strangers in the South Seas recounts and  
 illustrates this story using a wealth of primary texts It includes generous excerpts from the work of explorers soldiers  
 naturalists anthropologists artists and writers some famous some obscure It shows how the Great South Sea has been an  
 irreplaceable distant mirror of the West and its intellectual obsessions since the Renaissance Global West, American  
Frontier David M. Wrobel,2013-10-15 This thoughtful examination of a century of travel writing about the American West  
 overturns a variety of popular and academic stereotypes Looking at both European and American travelers accounts of the  
 West from de Tocqueville s Democracy in America to William Least Heat Moon s Blue Highways David Wrobel offers a  
 counter narrative to the nation s romantic entanglement with its western past and suggests the importance of some long  
 overlooked authors lively and perceptive witnesses to our history who deserve new attention Prior to the professionalization  
 of academic disciplines the reading public gained much of its knowledge about the world from travel writing Travel writers  
 found a wide and respectful audience for their reports on history geography and the natural world in addition to reporting on  
 aboriginal cultures before the advent of anthropology as a discipline Although in recent decades western historians have paid  
 little attention to travel writing Wrobel demonstrates that this genre in fact offers an important and rich understanding of the  
 American West one that extends and complicates a simple reading of the West that promotes the notions of Manifest Destiny

or American exceptionalism Wrobel finds counterpoints to the mythic West of the nineteenth century in such varied accounts as George Catlin's *Adventures of the Ojibbeway and Ioway Indians* in England France and Belgium 1852 Richard Francis Burton's *The City of the Saints* 1861 and Mark Twain's *Following the Equator* 1897 reminders of the messy and contradictory world that people navigated in the past much as they do in the present His book is a testament to the instructive ways in which the best travel writers have represented the West *The Ocean on Fire* Anaïs Maurer, 2024-03-01 Anaïs Maurer foregrounds Pacific literature as a key archive for surviving and thriving in an environment in which Indigenous inhabitants have been bombarded with the equivalent of one Hiroshima bomb a day for half a century **The Bookseller**, 1914
