

Tibetan Border Worlds

A Geohistorical Analysis
of Trade and Traders

Wim van Spengen

Tibetan Border Worlds Van

Christoph Bergmann

Tibetan Border Worlds Van:

Tibetan Border Worlds Wim Van Spengen, 2013-01-11 The focus of the study is the Tibetan and Tibetanized border populations in the little known Himalayan high valley of Nyishang in West Central Nepal close to the Tibetan border There a group of traders have greatly extended their external relations over the past century in the form of long distance trade ventures thereby thoroughly changing the internal conditions of socio economic organizations in their home district The object of the study is to establish whether larger geohistorical processes of structural change may be conceptualized in such a way as to link structuration at the level of the localized social group to the dynamics of the wider regional setting

Tibetan Border Worlds Willem van Spengen, 1992 *The Tibetan History Reader* Gray Tuttle, Kurtis R. Schaeffer, 2013-04-02 Answering a critical need for an accurate in depth history of Tibet this single volume resource reproduces essential hard to find essays from the past fifty years of Tibetan studies Covering the social cultural and political development of Tibet from the seventh century to the modern period the volume is organized chronologically and regionally to complement courses in Asian and religious studies and world civilizations Beginning with Tibet s emergence as a regional power and concluding with its profound contemporary transformations this anthology offers both a general and

Borderland Infrastructures Alessandro Rippa, 2025-10-01 Across the Chinese borderlands investments in large scale transnational infrastructure such as roads and special economic zones have increased exponentially over the past two decades Based on long term ethnographic research *Borderland Infrastructures* addresses a major contradiction at the heart of this fast paced development small scale traders have lost their historic strategic advantages under the growth of massive Chinese state investment and are now struggling to keep their businesses afloat Concurrently local ethnic minorities have become the target of radical resettlement projects securitization and tourism initiatives and have in many cases grown increasingly dependent on state subsidies At the juncture of anthropological explorations of the state border studies and research on transnational trade and infrastructure development *Borderland Infrastructures* provides new analytical tools to understand how state power is experienced mediated and enacted in Xinjiang and Yunnan In the process Rippa offers a rich and nuanced ethnography of life across China s peripheries **The Himalayan Border Region** Christoph

Bergmann, 2016-04-18 Drawing from extensive archival work and long term ethnographic research this book focuses on the so called Bhotiyas former trans Himalayan traders and a Scheduled Tribe of India who reside in several high valleys of the Kumaon Himalaya The area is located in the border triangle between India the Tibet Autonomous Region TAR People s Republic of China and Nepal where contestations over political boundaries have created multiple challenges as well as opportunities for local mountain communities Based on an analytical framework that is grounded in and contributes to recent advances in the field of border studies the author explores how the Bhotiyas have used their agency to develop a flourishing trans Himalayan trade under British colonial influence to assert an identity and win legal recognition as a tribal community in

the political setup of independent India and to innovate their pastoral mobility in the context of ongoing state and market reforms By examining the Bhotiyas trade identity and mobility this book shows how and why the Himalayan border region has evolved as an agentive site of political action for a variety of different actors **Frontier Tibet** Stéphane Gros,2025-10-01 *Frontier Tibet Patterns of Change in the Sino Tibetan Borderlands* addresses a historical sequence that sealed the future of the Sino Tibetan borderlands It considers how starting in the late nineteenth century imperial formations and emerging nation states developed competing schemes of integration and debated about where the border between China and Tibet should be It also ponders the ways in which this border is internalised today creating within the People s Republic of China a space that retains some characteristics of a historical frontier The region of eastern Tibet called Kham the focus of this volume is a productive lens through which processes of place making and frontier dynamics can be analysed Using historical records and ethnography the authors challenge purely externalist approaches to convey a sense of Kham s own centrality and the agency of the actors involved They contribute to a history from below that is relevant to the history of China and Tibet and of comparative value for borderland studies Reincarnation in Tibetan Buddhism Ruth Gamble,2018-07-09 *Reincarnation in Tibetan Buddhism* examines how the third Karmapa hierarch Rangjung Dorj 1284 1339 transformed reincarnation from a belief into a Tibetan tradition It surveys his life through the portal of his previously untranslated autobiographical stories and songs which reveal how his contribution to this tradition s invention Britain and Tibet 1765-1947 Julie G. Marshall,2005 This bibliography is a record of British relations with Tibet in the period 1765 to 1947 As such it also involves British relations with Russia and China and with the Himalayan states of Ladakh Lahul and Spiti Kumaon and Garhwal Nepal Sikkim Bhutan and Assam in so far as British policy towards these states was affected by her desire to establish relations with Tibet It also covers a subject of some importance in contemporary diplomacy It was the legacy of unresolved problems concerning Tibet and its borders bequeathed to India by Britain in 1947 which led to border disputes and ultimately to war between India and China in 1962 These borders are still in dispute today It also provides background information to Tibet s claims to independence an issue of current importance The work is divided into a number of sections and subsections based on chronology geography and events The introductions to each of the sections provide a condensed and informative history of the period and place the books and article in their historical context Most entries are also annotated This work is therefore both a history and a bibliography of the subject and provides a rapid entry into a complex area for scholars in the fields of international relations and military history as well as Asian history **The Frontier Complex** Kyle J. Gardner,2021-01-21 Reveals how British imperial border making in the Himalayas transformed a crossroads into a borderland and geography into politics From Mountain Fastness to Coastal Kingdoms John Deyell,Rila Mukherjee,2019-08-09 Money is central to the functioning of economies yet for the pre modern period our knowledge of monetary systems is still evolving Until recently historians of the medieval world have conflated the use of coins with a high

degree of monetization States without coinage were considered under monetized It is becoming more evident however that some medieval states used money in complex ways without using coinage Moneys of account supplanted coins wholly or in part But there is an imbalance of evidence coins survive physically while intangible forms of money leave little trace This has skewed our understanding Since coin usage has been well studied in the past these essays flesh out our consideration of societies that used money but struck no coins Absence or shortage of coining metals was not the causative factor some of these societies had access to metal supplies but still remained coinless Was this a strategic choice Does it reflect the unique system of governance that developed in each kingdom It is surely time to unravel this puzzle This book examines money use in the Bay of Bengal world using the case of medieval Bengal as a fulcrum Situated between mountains and the sea this region had simultaneous access to both overland and maritime trade routes How did such cashless economies function internally within their regions and in the broader Indian Ocean context This volume brings together the thoughts of a range of upcoming scholars and a sprinkling of their elders on these and related issues Please note Taylor Francis does not sell or distribute the Hardback in India Pakistan Nepal Bhutan Bangladesh and Sri Lanka *Places in Knots* Martin

Saxer,2023-01-15 Tracing the experiences of mobile Himalayans across the globe *Places in Knots* describes the ways in which Himalayan people relate to the multiple places they inhabit and the work and trouble of keeping their communities tied together Martin Saxer describes global Himalayan ventures as a form of expansion of community rather than out migration Moving out does not sever the bonds of community Instead it is the pull that tightens the knot Coffee table books and trekking agencies continue to advertise the Himalayas as remote hidden valleys and NGOs see them as fragile mountain ecosystems to be protected from global forces of destruction *Places in Knots* shows how these tropes of remoteness inform development and conservation policies and thus shape the contexts in which Himalayan connections with the wider world are forged and maintained Following Himalayan journeys between valleys in Nepal and beyond Saxer draws a picture of globalization that emerges not from the centers or below but rather from the edge Thanks to generous funding from LMU M nchen the ebook editions of this book are available as Open Access volumes from Cornell Open cornellpress.cornell.edu cornell open and other repositories **Narratives, Routes and Intersections in Pre-Modern Asia** Radhika

Seshan,2016-11-10 This book traces connections in pre modern Asia by looking at different worlds across geography history and society It examines how regions were connected by people families trade and politics as well as how they were maintained and remembered The volume analyses these intersections of memory and narrative of people and places and the routes that took people to these places using a variety of sources It also studies whether these intersections remain in later and present times and their larger impact on our understanding of history The narratives cover several journeys drawn from archaeology texts and cultural imagination trade routes marts fairs forts religious pilgrimages inscriptions calligraphy and coinages spanning diverse regions including India Tibet British forays India Malay intersections corporate enterprise in the

Indian Ocean impacts of slave trade in Southeast Asia shaped by the Dutch East India company movements and migrations around Indo Iranian borderlands and those in western and southern India The book will greatly interest scholars and researchers of history and archaeology cultural studies and literature

Migration, Development and Social Change in the Himalayas Madleina Daehnhardt, 2019-07-17 This book teases out the reasons for and the socio economic impacts of different types of migration on contemporary rural households and individuals The author creatively depicts the dynamic microcosm of one village in the North Indian Kumaun Himalayas near the border with Chinese Tibet giving voice to the life stories of a range of migrants Through this ethnography migration is revealed as a fundamental part of the multifaceted 21st century changes which the village is experiencing From elderly women to unemployed men young farm women and local children the book demonstrates how village life is continually constituted socially and economically by overlapping migration patterns including outmigration return migration in migration and even non migration Extending the argument the author demonstrates that the village microcosm is linked to many other villages which are microcosms in their own right as well as in relation to the main village across a spatial hierarchy The theoretical implications of the study are teased out to inform our understanding of rural urban migration trends and impacts more generally and as such the book will be of interest to researchers of the South Asian region but also of internal migration in the global context

An Atlas of the Himalayas by a 19th Century Tibetan Lama Diana Lange, 2020-06-08 Diana Lange's patient investigations have in this wonderful piece of detective work solved the mysteries of six extraordinary panoramic maps of routes across Tibet and the Himalayas clearly hand drawn in the late 1850s by a local artist known as the British Library's Wise Collection Diana Lange now reveals not only the previously unknown identity of the Scottish colonial official who commissioned the maps from a Tibetan Buddhist lama but also the story of how the Wise Collection came to be in the British Library The result is both a spectacular illustrated ethnographic atlas and a unique compendium of knowledge concerning the mid 19th century Tibetan world as well as a remarkable account of an academic journey of discovery It will entertain and inform anyone with an interest in this fascinating region This large format book is lavishly illustrated in colour and includes four separate large foldout maps

Historical Dictionary of Tibet John Powers, David Templeman, 2012-05-18 Tibet is a land bounded by the world's highest mountains and it is the repository of an ancient culture For centuries it was viewed by Europeans as a remote mystical place populated by Buddhist masters with supernatural powers and profound wisdom In contrast to this image it was once a warlike country whose expansionist rulers conquered a vast empire that incorporated much of central Asia and parts of China Even now the Tibetan Plateau remains a scene of contestation both ideologically and militarily Major popular uprisings in 1959 1988 and 2008 have drawn the attention of the world's media and its religious teachers often attract large crowds when they travel overseas The situation in the country remains highly volatile today as the 2008 uprising the largest and most widespread in the history of the region attests The Historical Dictionary of Tibet is the most comprehensive dictionary

published to date on Tibetan history It covers the history of Tibet from 27 000 BCE to the present through a chronology an introductory essay an extensive bibliography and over 1 000 cross referenced dictionary entries on important personalities politics economy foreign relations religion culture anthropology and sociology This book is an excellent access point for students researchers and anyone wanting to know more about Tibet **The Tibet Journal (Vol. XLVIII, No. 1,**

Spring/Summer 2023) ,2023-01-01 Contemporary Tibet Barry Sautman,June Teufel Dreyer,2017-03-02 The subject of Tibet is highly controversial and Tibet as a political entity is defined differently from source to source and audience to audience The editors of this path breaking multidisciplinary study have gathered some of the leading scholars in Tibetan and ethnic studies to provide a comprehensive analysis of the Tibet question Contemporary Tibet explores essential themes and issues concerning modern Tibet It presents fresh material from various political viewpoints and data from original surveys and field research The contributors consider such topics as representations and sovereignty economic development and political conditions the exile movement and human rights historical legacies and international politics identity issues and the local society The individual chapters provide historical background as well as a general framework to examine Tibet s present situation in world politics the relationship with China and the West and prospects for the future **Locating**

Southeast Asia H.G.C. Schulte Nordholt,R. Raben,2020-06-22 Southeast Asia calls to mind a wide range of images tropical forests and mountains islands and seas and a multitude of languages cultures and religions The area has never formed a unified political realm nor has it ever developed a cultural or civilisational unity Many academics have defined Southeast Asia over the years as what is left after subtracting Australia the South Pacific islands and China and India Others have pointed at diversity the variety and fluidity of the cultures wide ranging forms of economic activity and openness to external influences as the defining feature of the region But with area studies out of fashion is Southeast Asia even relevant any longer This volume considers Southeast Asia drawn from a number of regional and disciplinary perspectives The authors look at the region from the standpoint of Thailand and the Philippines Singapore and Hong Kong Japan and the Asian mainland the South China Sea and the seacoasts of the region They also discuss the significance of borders monetary networks transnational flows of people goods and information and knowledge in shaping Southeast Asia both for its residents for the scholars who study it and for the wider world Tibetan Diary Geoff Childs,2004-09-27 High in the Nepali Himalaya are a

number of ethnic Tibetan communities Geoff Childs presents a portrait of Nubri Kutang in which he chronicles the daily lives of community members in all their tangled intricacies **Imagining the Good Life** Francis Khek Gee Lim,2008-08-31 This is a book of great originality that analyses cultural change and experience of development in terms of the pursuit of the good life as a social process While recent anthropological critiques of development highlight the importance of local knowledge this book argues that these critiques have not gone far enough and suggests that a much more fundamental issue concerns the ends of development as seen from a more holistic cultural perspective Based on ethnographic research among an ethnic

Tibetan community in the Nepal Himalaya the book eloquently illustrates how the pursuit of the good life is inextricably tied to space and history and demonstrates the relevance of ethno historically generated conceptions of the good life to the practice of development
