describes the pleasures of walking in a creek digging for salamanders and learning to appreciate vultures Through these and other walks to school the Van Noys discover what lives nearby what nature has to teach and why this matters From the backyard to the hiking trail in a tide pool and a tree house in the wild and in town these narrative essays explore the terrain of childhood threatened by the lure of computers and television by fear and the loss of play habitat showing how kids thrive in their special places In chronicling one parent s determination and at times frustration to get his kids outside A Natural Sense of Wonder suggests ways kids both young and old can experience the wonder found only in the natural world
