Time And Freedom Studies In Phenomenology And Existential Philosophy:

Time and Freedom Christophe Bouton, 2014-10-30 Christophe Bouton's *Time and Freedom* addresses the problem of the relationship between time and freedom as a matter of practical philosophy examining how the individual lives time and how her freedom is effective in time. Bouton first charts the history of modern philosophy's reengagement with the Aristotelian debate about future contingents beginning with Leibniz. While Kant, Husserl and their followers would engage time through theories of knowledge, Schopenhauer, Schelling, Kierkegaard and later Heidegger, Sartre and Levinas applied a phenomenological and existential methodology to time but faced a problem of the temporality of human freedom. Bouton's is the first major work of its kind since Bergson's *Time and Free Will* 1889 and Bouton's mystery of the future in which the individual has freedom within the shifting bounds dictated by time charts a new direction.

Theology After Ricoeur Dan R. Stiver, 2001-01-01 Dan Stiver presents the implications of Paul Ricoeur's hermeneutical philosophy for a postmodern theology by providing a comprehensive interpretation of Ricoeur and then applying Ricoeur's hermeneutical theory to biblical interpretation and theology. Stiver situates Ricoeur's contributions in the Yale-Chicago debate and shows how Ricoeur's textual theory provides a real alternative to George Lindbeck on the one hand and deconstruction on the other.

A Companion to Ricoeur's The Symbolism of Evil Scott Davidson, 2020-05-20 *The Symbolism of Evil* is the final book in Ricoeur's early trilogy on the will. While *Freedom and Nature* sets aside normative questions altogether and *Fallible Man* examines the question of what makes the bad will possible, here Ricoeur takes up the question of evil in its actuality. What is the nature of the will that has succumbed to evil? The question of evil resists reflection and remains inscrutable, leading Ricoeur to proceed indirectly through a study of the abundant resources contained in symbols and myths. Symbols, as Ricoeur famously says, give rise to thought and thereby open up a field of meanings which help to inform a philosophical reflection on evil. This hermeneutics of symbols signals an important shift in Ricoeur's philosophical trajectory which increasingly turns to language and the various forms of discourse which harbor multiple meanings. The contributors to this volume, edited by Scott Davidson, highlight a wide range of important themes in Ricoeur's treatment of the symbolics of evil that resonate with current topics in contemporary philosophy and religion.

The paradox of freedom in everyday leadership practice Rikke Horup Sørensen, 2025-03-11 This thesis is an autoethnographic inquiry into the identity work of leaders working in the public sector in Denmark. The research is about how degrees of freedom can be experienced when it is acknowledged that leaders are paradoxically both enabled and constrained through interdependencies with others. The main puzzle is about what is involved in the processes of leaders negotiating identity when thinking about the mutual constitution of individuality and sociality. This research argues that identity work within leadership is based on contradictions and ambiguities as well as how leaders simultaneously form and are formed by social rules and norms. The inquiry illustrates the temporality of leadership identity. It emphasizes how the

human capacity to adapt to different power relations comes with either the risk of indeterminacy and a weak sense of self or with the risk of determinacy and a weak sense of the other. Losing the paradoxical understanding of these interdependencies might result in either dogmatism or relativism. This research provides critical insight into both positions.

Public Theology in the Post-Secular Age Dominic Budhi-Thornton, 2025-07-31 As religion's status and place within society is contested in the post-secular age, Manchester Cathedral is a fascinating case study of the potential role that cathedrals and other religious institutions may be able to play in various public settings. While the church's membership declines in the UK, Manchester Cathedral operates as a spiritual hub in the area of Greater Manchester. Using primary data gathered on the ground, this work explores Manchester Cathedral's public theologies of inclusion which lie at the heart of its various activities and practices. Focusing most explicitly on the cathedral's interfaith work, anti-racism work, and its theology of LGBTQIA inclusion, the author explores the potential strengths and weaknesses of religious engagement in the contemporary post-secular age. In this book, Budhi Thornton seeks to contribute to questions about the relationship between the religious and the secular tradition and innovation, inclusion and distinctiveness. Drawing on a wide range of theological and philosophical traditions, Budhi Thornton puts forward a case for the development of a public theological hospitality that remains open to the work of the Spirit in the life of the Other.

Political Phenomenology Hwa-Yol Jung, Lester Embree, 2016-06-13 This volume presents political phenomenology as a new specialty in western philosophical and political thought that is post-classical, post-Machiavellian, and post-behavioral. It draws on history and sets the agenda for future explorations of political issues. It discloses crossroads between ethics and politics and explores border-crossing issues. All the essays in this volume challenge existing ideas of politics significantly. As such, they open new ways for further explorations by future generations of phenomenologists and non-phenomenologists alike. Moreover, the comprehensive chronological bibliography is unprecedented and provides not only an excellent picture of what phenomenologists have already done but
