Times And Tides Of Tuberculosis Perceptions Revealed In Literature Keats To Sontag:

Times and Tides of Tuberculosis Thomas M. Daniel, M.D., 2013-09-30 This is a study of changing attitudes of patients the medical community and society in general towards tuberculosis over the course of a century and a half As TB became better understood scientifically treatment of the disease changed for the better and the attitudes became more hopeful This book illustrates these changing attitudes with the life stories and sample works of well known writers novelists essayists and poets Not all of these writers had TB themselves but they all were well enough acquainted with the disease to write about it eloquently This added dimension gives the book another identity in addition to medical and social history *Times and Tides of Tuberculosis* offers literary history and criticism

The Top Ten Diseases of All Time Stacey Smith?, 2023-10-24 Infectious diseases have been with us for millennia and continue to pose a threat from the irritation of flu season to the potential extinction of our species We instinctively fear them and alter our behaviour as a result The reason we bury bodies six feet deep is because that was the depth that stopped plague transmission from the dead in the Middle Ages Many religious practices such as avoiding certain meats were established because of foodborne disease transmission In *The Top Ten Diseases of All Time* Stacey Smith presents the top ten deadliest diseases and their effects on society providing a wealth of information about the trajectory and terrible impact of each disease and humanity's reaction to these diseases throughout the millennia Did you know for example that The medical symbol evolved from the worms wrapped around a stick because that was the only way to remove Guinea worms from the body so having a stick meant you were a doctor Smallpox is the third worst disease ever yet it remains the only successfully eradicated human disease but not for long thanks in part to a successful vaccine in part to photographic recognition cards and in part due to helicopter led forced vaccinations of whole villages in the former Yugoslavia This brings up issues of individual rights versus public good that remain relevant today Four diseases were targeted for eradication in the 20th century the failure to do so led directly to the creation of the environmental movement The inability of priests to explain how to stop the plague in the Middle Ages broke the back of the church as an all powerful and all knowing institution and led to colonialism and slavery *The Top Ten Diseases of All Time* offers a fascinating overview of the deadliest diseases to spread throughout the world including HIV AIDS Spanish Flu Measles The Black Death Smallpox and others

Interpreting Susan Sontag's Essays Mark Fulk, 2021-04-12 Interpreting Susan Sontag's *Essays* Radical Contemplative offers its readers a scholarly examination of her essays within the context of philosophy and aesthetic theory This study sets up a dialogue between her works and their philosophical counterparts in France and Germany including the works of Hannah Arendt Jacques Derrida Roland Barthes and Walter Benjamin Artists and concepts discussed in relation to Sontag's essays include the works of Andy Warhol Pop Art French New Wave Cinema the music of John Cage and the cinematic art of Robert Bresson Leni Riefenstahl Ingmar Bergman and Jean Luc Godard Her aesthetic formalism is compared with Harold Bloom and this is the first volume to examine her late works and their position
