Durang, 1983 **Beginners Guide to Conquering an Ironman Triathlon** Andrew Crabtree, 2017-08-31 OK so you ve decided you are going to undertake an Ironman You have watched a couple a motivational videos on YouTube you have logged onto the site entered your details paid your fee told everybody you know about it on Facebook and Twitter and have undertaken a sponsorship drive for the charity of your choice Life is good and you feel good about it At some point the enormity of what you have signed up for will hit you It could be when you wake up in the middle of the night for a pee when you start to read an article on the number of hours the Pro s put into training on a weekly basis or when you attempt your first swim in the pool and struggle to complete ten lengths Do not panic As daunting as it feels at this moment in time this is an achievable life changing challenge which will push you to your limits If you put the right training and preparation in you will stand or float at the start line knowing that this is going to be one of the most amazing days of your life The following Chapters will take you through planning executing and recovering in the weeks and months up to your Ironman event The Chapters are aimed to be succinct and to the point in topics which are notoriously full of differing opinions and supporting scientific proof The Chapters are based upon my findings during my journey to completing the four Ironman events that I have to date with a lot of reading picking peoples brains and trial and error Completing an Ironman is tough and should be given the respect that it deserves in the training and preparation that is made but caution should be taken in not giving the event too much respect in that it becomes crippling in your pursuit of glory **Project Ironman** Todd Pringle, 2016-01-14 I have written this book over the course of the last 5 years leveraging the contents as I coach and train for Ironman distance races There seemed to be a gap to help assist self coached athletes to pull together the pieces helping them achieve their personal goals in endurance sports Most books I have read are excellent for helping to define training plans use of training technologies sprinkled with a few inspirational stories of how people overcame their challenges to achieve their triathlon goals The challenge for some of us myself included is that technology and the details of the workouts are only a piece of the puzzle that help us to achieve our goals They are the needed evils of training for our sport but what seemed to be missing was a method to pull the information together in a manner that wasn t completely overwhelming My approach was developed to ensure I had triathlon work life balance and not necessarily in that order in an easy to understand methodology Most of us hold down full time jobs and have kids or other family activities at the very least I have a unique background for this journey with you I am veteran of many marathons and all Triathlon length

races including multiple Ironman s I am an IRONMAN CERTIFIED Coach I am also a seasoned project manager since the early 90 s and have managed numerous multimillion dollar complex projects The discipline instilled by project management with budget scope schedule and quality constraints naturally lent itself to a logical and ordered approach for tackling the Ironman goals I took my simple approach that I apply to large projects and applied it for endurance sports **The**
