Perspectives on the Fourth Industrial Revolution Zamanzima Mazibuko-Makena,Erika Kraemer-Mbula.,2021-04-09 Leap 4 0 African Perspectives on the Fourth Industrial Revolution seeks to identify the challenges and opportunities the 4IR presents to South Africa and the rest of the African continent especially to workers and marginalised sectors of society Authors examine the prerequisites for the successful introduction of the 4IR including infrastructure skilled personnel and appropriate regulation They underline the importance of inclusive innovation with a deliberate objective to create net new jobs and reduce inequality The 4IR is well established in many parts of the world with technological advances driving profound social and economic change However for many developing countries particularly countries in Africa the 4IR may not offer the anticipated leap forward There is a danger that the continent may find itself dictated to by experiences that are not in tune with its social contexts **Treasured** Christina Riggs,2022-02-01 A bold new history of the discovery of King Tut

and the seismic impact it left on modern society When it was discovered in 1922 in an Egypt newly independent of the British Empire the 3 300 year old tomb of Tutankhamun sent shockwaves around the world The boy king became a household name overnight and kickstarted an international obsession that continues to this day From pop culture and politics to tourism and the heritage industry it s impossible to imagine the past century without the discovery of Tutankhamun yet so much of the story remains untold In Treasured Christina Riggs weaves compelling historical analysis with tales of lives touched or changed forever by an encounter with the boy king Who remembers that Jacqueline Kennedy first welcomed the young pharaoh to America That a Tutankhamun revival in the 1960s helped save the ancient temples of Egyptian Nubia Or that the British Museum s landmark Tutankhamun exhibition in 1972 remains its most successful ever But not everything about King Tut glitters tours of his treasures in the 1970s were linked to Big Oil his mummified remains have been exploited in the name of science and accounts of his tomb s discovery exclude Egyptian archaeologists Treasured offers a bold new history of the young pharaoh who has as much to tell us about our world as his own **Handbook of Theory and Practice of**

Sustainable Development in Higher Education Walter Leal Filho,Mark Mifsud,Chris Shiel,Rudi Pretorius,2016-12-01 This

Handbook approaches sustainable development in higher education from an integrated perspective addressing the dearth of publications on the subject. It offers a unique overview of what universities around the world are doing to implement sustainable development i.e. via curriculum innovation, research activities or practical projects and how their efforts relate to education for sustainable development at the university level. The Handbook gathers a wealth of information, ideas, best practices and lessons learned in the context of executing concrete projects and assesses methodological approaches to integrating the topic of sustainable development in university curricula. Lastly, it documents and disseminates the veritable treasure trove of practical experience currently available on sustainability in higher education.

Climate Change and Energy Dynamics in the Middle East Hassan Qudrat-Ullah, Aymen A. Kayal, 2019-03-28. This edited volume presents chapters on the dynamics of global climate change and global warming in the Middle East. In this region, it should be noted that even slightly warmer weather can result in an increased demand of energy along with its lower supply as well as lower labor productivity. This text focuses on modeling, simulation, system dynamics and agent-based modeling in dealing with these issues. The latest decision-making tools, techniques and innovative solutions used to overcome these challenges are presented. Many distinguished researchers contribute their work herein. The audience for this volume includes policy makers, researchers and students unified by the common goal of making better decisions in the sustainable production and consumption of energy. The practical orientation of the chapters within each part is intended to suit the practitioners, managers and decision makers in the energy sector of the Middle East region.
