Twenty First Century Peace Operations:

Twenty-first-century Peace Operations William J. Durch, 2006 This superbly edited volume addresses the question of what has been accomplished and what lessons have been learned from ten years of peace operations in post conflict societies

The Militarisation of Peacekeeping in the Twenty-First Century James Sloan, 2011-11-01 Since the end of the last century UN peacekeeping has undergone a fundamental and largely unexamined change Peacekeeping operations long expected to use force only in self defence and to act impartially are now increasingly relied upon by the Security Council as a means to maintain and restore security within a country The operations are established under Chapter VII of the UN Charter and some are empowered to use all necessary measures language traditionally reserved for enforcement operations Through a close examination of these twenty first century peacekeeping operations including operations in Sierra Leone the Democratic Republic of the Congo Liberia Cote d'Ivoire Haiti and the Darfur region of the Sudan the book shows that they are for the most part fundamentally ill suited to the enforcement type tasks being asked of them The operations which are under funded under equipped and whose troops are under trained frequently lurch from crisis to crisis There is scant evidence some 10 years on that matters are likely to improve The book argues that bestowing enforcement type functions on a peacekeeping operation is misconceived Such operations are likely to be unsuccessful in their enforcement type tasks thereby causing serious damage to the excellent reputation of UN peacekeeping and the UN more broadly In addition because such operations are more likely to be perceived as partial their ability to carry out traditional non forceful peacekeeping tasks may be impeded Finally the Security Council's practice of charging peacekeeping operations with enforcement functions lessens the pressure on the Council to work to establish genuine enforcement operations ie operations that are considerably better suited to restoring peace and security Dr Sloan is able to show in knowledgeable detail not only what has changed over the years but also what has brought these changes about His analysis leads him to offer not only well informed insights but critical observations too This book is a pleasing combination of detailed scrutiny of topics already familiar provisional measures consent so called Chapter VI 2 action implied powers and a rigorous questioning as to their place in or indeed relevance at all to militarised peacekeeping The reader will find much new terrain traversed and plenty of out of the box thinking From the foreword by Dame Rosalyn Higgins

Military Forces in 21st Century Peace Operations James V. Arbuckle, 2006-09-27 As the antithetical relationships between the civilian and military agencies and components of modern peace operations are essentially cultural and are rooted in misinformation and prejudice effective civil military operations are needed from the outset of an operation

Who Should Keep the Peace? William J. Durch, Tobias C. Berkman, 2006

Maintaining peace has traditionally been the job of nations but as populations grow distances shrink borders leak and belief systems clash it has increasingly become a multinational collaborative task As evidence consider the number of peace support operations PSOs now working in the world's least well governed most conflict ridden regions and the growing

number of institutions supporting them This volume offers a critical institutional performance review of PSO security providers from the United Nations to the private sector comparing them on many dimensions from legitimacy and deployment agility to firepower and staying power Its concluding observations stress the risks of either privatizing peace or of making its rebuilding a largely military enterprise

The Militarisation of Peacekeeping in the Twenty-First Century James Sloan, 2011-11-01 Since the end of the last century UN peacekeeping has undergone a fundamental and largely unexamined change Peacekeeping operations long expected to use force only in self defence and to act impartially are now increasingly relied upon by the Security Council as a means to maintain and restore security within a country The operations are established under Chapter VII of the UN Charter and some are empowered to use all necessary measures language traditionally reserved for enforcement operations Through a close examination of these twenty first century peacekeeping operations including operations in Sierra Leone the Democratic Republic of the Congo Liberia Cote d'Ivoire Haiti and the Darfur region of the Sudan the book shows that they are for the most part fundamentally ill suited to the enforcement type tasks being asked of them The operations which are under funded under equipped and whose troops are under trained frequently lurch from crisis to crisis There is scant evidence some 10 years on that matters are likely to improve The book argues that bestowing enforcement type functions on a peacekeeping operation is misconceived Such operations are likely to be unsuccessful in their enforcement type tasks thereby causing serious damage to the excellent reputation of UN peacekeeping and the UN more broadly In addition because such operations are more likely to be perceived as partial their ability to carry out traditional non forceful peacekeeping tasks may be impeded Finally the Security Council's practice of charging peacekeeping operations with enforcement functions lessens the pressure on the Council to work to establish genuine enforcement operations ie operations that are considerably better suited to restoring peace and security Dr Sloan is able to show in knowledgeable detail not only what has changed over the years but also what has brought these changes about His analysis leads him to offer not only well informed insights but critical observations too This book is a pleasing combination of detailed scrutiny of topics already familiar provisional measures consent so called Chapter VII 2 action implied powers and a rigorous questioning as to their place in or indeed relevance at all to militarised peacekeeping The reader will find much new terrain traversed and plenty of out of the box thinking From the foreword by Dame Rosalyn Higgins

Military Forces in 21st Century Peace Operations James V. Arbuckle, 2006-09-27 A major new study of the realities of contemporary warfare which presents a range of fresh insights and is essential reading for all students and professionals engaged in the field This book clearly shows us that neither military nor civilian agencies can act effectively alone in resolving modern conflicts joint civil military efforts are needed and those efforts must be deliberately planned from the outset of an operation they cannot be added on as afterthoughts when all else has failed the record of our efforts over nearly a decade and a half since the end of the Cold War demonstrates that we are doing badly at creating civil military

partnerships and that we are not getting better James V Arbuckle shows how these issues are neither structural nor organizational they are cultural They involve attitudes beliefs perceptions positive and negative true and false The solutions will involve changing attitudes moving beyond prejudices replacing competition with cooperation The principal mechanisms for this will be common civil military training and education
