Die Landschaft interpretieren: Interdisziplinäre Ansätze Werner Kreisel, Peter H. Marsden, Tobias Reeh, 2021 There is no generally valid recognised definition of what landscape actually is On the basis of its relatedness to the environment to aesthetics territory society politics economics geography planning ethnology and philosophy the concept of landscape is considered to be a composite notion shaped by a thousand years of Central European ideas and of literary and art history In other words the very term landscape is ambiguous and it is used in different ways both in the scholarly world and everyday speech The aim of this volume is to present various possible approaches to the phenomenon of landscape Far from laying any claim to be exhaustive or comprehensive we have simply tried to do justice to the overarching interdisciplinary approach of the Zentrum für Landschaftsinterpretation und Tourismus ZELT Centre for Landscape Interpretation and Tourism by singling out and addressing individual instances of this fascinating multifaceted phenomenon *Bitten by Twilight* Melissa A.
