Twilights Last Gleaming How Americas Last Days Can Be Your Best Days:

Twilight's Last Gleaming Dr. Robert Jeffress, 2012-01-01 Never in recent history have Christians been more discouraged and fearful about our country's future Economic chaos immorality terrorism and global turmoil have convinced many that we are living in the twilight days of America Dr Robert Jeffress agrees But it is not the end of the story he writes in *Twilight's Last Gleaming* Although we cannot prevent America's eventual demise we can delay it and make a difference for eternity at the same time For everyone who wonders what can be done right now within our culture our churches in the voting booth and our neighborhoods Jeffress answers with biblical insight and real world clarity showing Christians how to seize this unprecedented opportunity and point people to our only Hope *Trump and the Protestant Reaction to Make America Great Again* Matthew Rowley, 2020-11-01 This book explores how polarised interpretations of America's past influence the present and vice versa A focus on competing Protestant reactions to President Trump's Make America Great Again slogan evidences a fundamental divide over how America should remember historical racism sexism and exploitation Additionally these Protestants disagree over how the past influences present injustice and equality The 2020 killing of George Floyd forced these rival histories into the open Rowley proposes that recovering a complex view of the past confessing the bad and embracing the good might help Americans have a shared memory that can bridge polarisation and work to secure justice and equality An accessible and timely book this is essential reading for those concerned with the vexed relationship of religion and politics in the United States including students and scholars in the fields of Protestantism history political science religious studies and sociology *Taking America Back for God* Andrew L. Whitehead, Samuel L. Perry, 2020 The President of the United States brags about sexually assaulting women cheats on his wife with Playboy models and porn stars and claims he's never asked for God's forgiveness Yet majorities of both white evangelical and mainline Protestants continue to support him Why do Americans in these religious groups embrace a politician who seems to violate their basic standards of morality A megachurch pastor declares on Fox News that he and tens of millions of Americans think that professional football players kneeling for the national anthem should be thanking God that they live in a country where they're free from the worry of being shot in the head for taking a knee like they would be if they were in North Korea Why do some Americans conflate God and country And why do many of these same Americans seem so unsympathetic to the plight of their fellow citizens who are racial or religious minorities The answer Andrew Whitehead and Samuel Perry argue is a strain of thought that they call Christian nationalism the belief that the United States is and should be a Christian nation Christian ideals and symbols have long played an important role in American public life but Christian nationalism demands far more than a recognition of our religious heritage At its heart Whitehead and Perry argue Christian nationalism is about a fight to preserve a particular kind of social order one in which everyone Christians and non Christians native born and immigrants whites and minorities men and women recognizes their proper place in society And it is a significant driver of political

behavior In fact knowing someone's stance on Christian nationalism tells us more about his or her political beliefs than race religion or political party Drawing on national survey data and interviews with Americans across the political spectrum Taking America Back for God illustrates the tremendous influence of Christian nationalism on debates about the most contentious issues dominating American public life [Dissenting from Donald Trump While Listening to "The Battle Hymn of the Republic"](#) Rodney Wallace Kennedy,2025-08-21 Democracy now exists in a state of precarity The anti democratic swing in America's mood has been orchestrated by President Donald Trump He has used demagoguery a false populism fear and a spirit of resentment and revenge to enthrall the masses His excessive rhetoric has divided and angered the nation The essays in this book dissent from Trump his rhetoric his actions his lies his deceptions and his lack of respect for the rule of law All the negative descriptions of President Trump can be summarized in one theological term Evil His actions are those of a person who is the incarnation of evil My protests have now continued for more than nine years Democracy can't survive without dissent This is a book of dissent **Shadow Network** Anne Nelson,2019-10-29 Reveals a political trend that threatens both our form of government and our species Timothy Snyder author of ON TYRANNY Riveting Want to understand how so many Americans turned against truth Read this book Nancy Maclean author of DEMOCRACY IN CHAINS In 1981 emboldened by Ronald Reagan's election a group of some fifty Republican operatives evangelicals oil barons and gun lobbyists met in a Washington suburb to coordinate their attack on civil liberties and the social safety net These men and women called their coalition the Council for National Policy Over four decades this elite club has become a strategic nerve center for channeling money and mobilizing votes behind the scenes Its secretive membership rolls represent a high powered roster of fundamentalists oligarchs and their allies from Oliver North Ed Meese and Tim LaHaye in the Council's early days to Kellyanne Conway Ralph Reed Tony Perkins and the DeVos and Mercer families today In Shadow Network award winning author and media analyst Anne Nelson chronicles this astonishing history and illuminates the coalition's key figures and their tactics She traces how the collapse of American local journalism laid the foundation for the Council for National Policy's information war and listens in on the hardline broadcasting its members control And she reveals how the group has collaborated with the Koch brothers to outfit Radical Right organizations with state of the art apps and a shared pool of captured voter data outmaneuvering the Democratic Party in a digital arms race whose result has yet to be decided In a time of stark and growing threats to our most valued institutions and democratic freedoms Shadow Network is essential reading

The Immaculate Mistake Rodney Wallace Kennedy,2021-09-23 President Donald Trump originated his political career by claiming that Barack Obama was not born in the USA His birtherism theory was discredited but there's another possibility about birth Evangelicals have given birth to Donald Trump in the immaculate mistake Evangelicals are not a collection of dumb and irrational people they are the creators of the demolition presidency of Trump He is their child the result of almost one hundred years of evangelical angst resentment and hurt This is the story of how Trump has become a secular evangelical

preacher and his message of fear hatred division and getting even has captured the hearts and minds of evangelicals Rather than dismissing them this work takes them seriously and literally and offers a frank and disturbing series of portraits of their determination to win at all costs **Global Islamophobia and the Rise of Populism** Sahar F. Aziz,John L. Esposito,2024

In recent years Islamophobia has seen a disturbing global rise Blaming Muslim minorities for economic political and social problems is an increasingly common rhetorical strategy for politicians in countries worldwide A narrative of the threatening Muslim invader is troublingly prevalent regardless of whether the targets of such rhetoric are born citizens or new arrivals Its consequences are deadly and devastating for Uyghurs in China indefinitely detained in concentration camps Indian Muslims attacked in pogroms and the Rohingya victims of genocide In parts of Europe and North America the consequences of Islamophobia are less overtly violent but no less harmful Muslims are banned from wearing hijab building minarets opening Islamic schools or legally immigrating to certain countries In the United States Europe and India Islamophobic rhetoric is increasingly normalized fracturing ethnically diverse societies as xenophobic right wing political ideals accumulate followers at an alarming pace In turn Islamophobia in the West gives license to discrimination elsewhere creating a vicious cycle of Islamophobia **Global Islamophobia and the Rise of Populism** is the first book to systemically examine the complex factors contributing to the rise in Islamophobia and right wing populism across three continents North America Europe and Asia Internationally renowned scholars offer insightful and empirically grounded analysis linking local contexts with global trends This groundbreaking book is an essential contribution to discourse on immigration racism xenophobia and human rights Standing Apart Miranda Wilcox,John D. Young,2014-04-15 Winner of the Best Anthology Award from John

Whitmer Historical Association Latter day Saints have a paradoxical relationship to the past even as they invest their own history with sacred meaning celebrating the restoration of ancient truths and the fulfillment of biblical prophecies they repudiate the eighteen centuries of Christianity that preceded the founding of their church as apostate distortions of the truth Since the early days of Mormonism Latter day Saints have used the paradigm of apostasy and restoration in their narratives about the origin of their church This has generated a powerful and enduring binary of categorization that has profoundly impacted Mormon self perception and relations with others **Standing Apart** explores how the idea of apostasy has functioned as a category to mark define and set apart the other in Mormon historical consciousness and in the construction of Mormon narrative identity The volume s fifteen contributors trace the development of LDS narratives of apostasy within the context of both Mormon history and American Protestant historiography They suggest ways in which these narratives might be reformulated to engage with the past as well as offering new models for interfaith relations This volume provides a novel approach for understanding and resolving some of the challenges faced by the LDS church in the twenty first century

The Politics of Vulnerability Asma T. Uddin,2021-03-23 A religious liberty lawyer and acclaimed author reveals the root of America s polarization inside the Muslim and evangelical Christian divide and how it can be healed Despite the dire

consequences of America's cultural, political, and religious divisiveness from increasing incivility to discrimination and outright violence. Few have been able to get to the core cause of this conflict. Even fewer have offered measures for reconciliation. Now in *The Politics of Vulnerability*, Asma Uddin, American Muslim public intellectual, religious liberties attorney, and activist, provides a unique perspective on the complex political and social factors contributing to the Muslim-Christian divide. Unlike other analysts, Uddin asks what underlying drivers cause otherwise good people to do or believe bad things. Why do people who value faith support measures that limit others, especially of Muslims' religious freedom and other rights? Uddin humanizes a contentious relationship by fully embracing both sides as individuals driven by very human fears and anxieties. Many conservative Christians fear that the Left is dismantling traditional Christian America to replace it with an Islamized America, a conspiratorial theory that has given rise to an evangelical persecution complex, a politicized vulnerability. Uddin reveals that Islamophobia and other aspects of the conservative Christian movement are interconnected. Where does hate come from, and how can it be conquered? Only by addressing the underlying factors of this politics of vulnerability can we begin to heal the divide.

Bible Prophecy and Today Ted Bates, 2019-08-08 Do you remember your elementary school days when your teacher held Show and Tell? In my book *Bible Prophecy and Today: An Urgent Wake Up Call*, I take you back to those days. I show you how Bible prophecies written thousands of years ago are being fulfilled today. They are happening right before our eyes. I show you how God's word and today's world tell the same story. We are witnessing many end times Bible prophecies as they come into full fruition. The Bible is alive. It breathes and is relevant to your life. While dark times and dangerous events are already occurring on our planet, there is still a silver lining in the clouds for those who place their hope in Jesus. I want to inform and counsel you as you travel through stormy, troubled waters in order to guide you into the safe haven of the Lord's secure and everlasting arms. He is what our hearts truly desire, and He said, "Call to Me, and I will answer you, and show you great and mighty things which you do not know." Jeremiah 33:3. Come and see how Bible prophecies are being fulfilled today and what that means for you. Ted Bates, Author.
