Steeped in Blood Frances J. Latchford, 2019-08-15 What personal truths reside in biological ties that are absent in adoptive ties And why do we think adoptive and biological ties are essentially different when it comes to understanding who we are At a time when interest in DNA and ancestry is exploding Frances Latchford questions the idea that knowing one's bio genealogy is integral to personal identity or a sense of family and belonging Upending our established values and beliefs about what makes a family Steeped in Blood examines the social and political devaluation of adoptive ties It takes readers on an intellectual journey through accepted wisdom about adoption twins kinship and incest and challenges our naturalistic and individualistic assumptions about identity and the biological ties that bind us sometimes violently to our families Latchford exposes how our desire for bio genealogical knowledge understood as it is by family and adoption experts pathologizes adoptees by posing the biological tie as a necessary condition for normal identity formation Rejecting the idea that a love of the self same is fundamental to family bonds her book is a reaction to the wounds families suffer whenever they dare to revel in their difference A rejoinder to rhetoric that defines adoptees adoptive kin and their family intimacies as inferior and inauthentic Steeped in Blood's view through the lens of critical adoption studies decentres our cultural obsession with the biological family imaginary and makes real the possibility of being family in the absence of blood **Twins** Lawrence

Lex and Livia are on the run. In *Time of the Twins*, Lex, an impulsive military cadet, and Livia, a pampered heiress, have just found out they are twins, which is against the law in the great City of Indra. Now they are leaving behind the only world they have ever known. For Lex, it was the dark world of the Hub, below the surface of Indra, where she survived the brutal Orphanage to become an elite member of Indra's Population Control Forces, and for Livia, it was a life of luxury on the sky island of Helix, where she was brought up to be a Proper Indrithian Young Woman. With help from the charming and handsome Kane, Lex's best friend, and Livia's newfound love, and Xavier, a gruff rebel who would prefer to leave them all behind, they make the grueling trek through the dangerous underground tunnels toward the Outlands, beyond the dome of Indra, in search of the mother they thought was dead. When they finally reach the Outlanders' colony, they discover their mother holds the key to unlocking their past, and they must confront an ancient prophecy. The Time of the Twins. The prophecy claims they are the long-awaited twin saviors destined to save the City of Indra from the oppressive High Council, who have long reigned over all of its people. Will Lex and Livia agree to be a part of their mother's dangerous plan and take on the daunting role of the twin saviors? Will they trust their mother and put themselves in jeopardy to save countless lives? It's a responsibility they never asked for, but one that may prove impossible to ignore. With unforgettable characters, an action-packed pace, and the sparks of new romance, the Jenner sisters have created a page-turning, heart-stopping adventure that will leave you wanting more.
