

Compare and Contrast a Story

Remember, when comparing, you are looking for things that are the same. When contrasting, you are looking for things that are different. In the following two fables, there are things that are the same and things that are different. Read each of them carefully and begin to compare and contrast the two versions of the fable titled *The Wolf in Sheep's Clothing*.

Version 1: The Wolf In Sheep's Clothing

A certain Wolf could not get enough to eat because of the watchfulness of the Shepherds. But one night he found a sheep skin that had been cast aside and forgotten. The next day, dressed in the skin, the Wolf strolled into the pasture with the Sheep. Soon a little Lamb was following him about and was quickly led away to slaughter.

That evening the Wolf entered the fold with the flock. But it happened that the Shepherd took a fancy for mutton broth that very evening, and, picking up a knife, went to the fold. There the first he laid hands on and killed was the Wolf.

Moral: The evil doer often comes to harm through his own deceit.

Version 2: The Wolf In Sheep's Clothing

Night after night a wolf prowled around a flock of sheep looking for one of them to eat, but the shepherd and his dogs always chased him away.

But one day the wolf found the skin of a sheep that had been thrown aside. He pulled the skin carefully over him so that none of his fur showed under the white fleece. Then he strolled among the flock in this disguise. The shepherd, thinking that the wolf was one of his sheep, allowed the wolf to graze on the lush grass in the pasture, and even let him sleep in the warm barn with the sheep.

For many days and nights, the wolf ate and slept better than he ever had. But one day the shepherd decided to sell one of his flock at the market. He chose the biggest, fattest sheep he could find and brought him into town. Can you guess who it was? It was the wolf!

Moral: Things are not always as they seem; and, if you pretend to be what you are not, you might end up losing in the end.

Two Versions Of The Same Story

Alberto Acerbi

Two Versions Of The Same Story:

Apollonius' Argonautica M.M. DeForest, 2018-07-17 The Argonautica was said to have been the source of a quarrel between Apollonius who wrote what looks like an epic poem and Callimachus who denounced the writing of epic poetry. Although the quarrel did not take place in the real world its issue controls the poem. The heroes are determined to take part in a Homeric epic which the Callimachean narrator refuses to write. Drawing on the methods of modern literary theorists but eschewing the jargon DeForest shows how Apollonius uses the literary dispute in Alexandria to give a three dimensional quality to his poem. The amusing conflict between heroes and narrator turns serious when the levels of narrative split apart and Medea steps into the gap as a free standing figure the forerunner of powerful women in fiction. *Cultural Evolution in the Digital Age* Alberto Acerbi, 2019-11-28 From emails to social media from instant messaging to political memes the way we produce and transmit culture is radically changing. Understanding the consequences of the massive diffusion of digital media is of the utmost importance both from the intellectual and the social point of view. Cultural Evolution in the Digital Age proposes that a specific discipline cultural evolution provides an excellent framework to analyse our digital age. Cultural evolution is a vibrant interdisciplinary and increasingly productive scientific framework that aims to provide a naturalistic and quantitative explanation of culture. In the book the author shows how cultural evolution offers both a sophisticated view of human behaviour grounded in cognitive science and evolutionary theory and a strong quantitative and experimental methodology. The book examines in depth various topics that directly originate from the application of cultural evolution research to digital media. Is online social influence radically different from previous forms of social influence? Do digital media amplify the effects of popularity and celebrity influence? What are the psychological forces that favour the spread of online misinformation? What are the effects of the hyper availability of information online on cultural cumulation? The cultural evolutionary perspective provides novel insights and a relatively encouraging take on the overall effects of our online activities on our culture. Cultural Evolution is an area of rapidly growing interest and this timely book will be important reading for students and researchers in the fields of psychology anthropology cognitive science and the media.

Metaculture Greg Urban, 2001 **The Biblical Saga of King David** John Van Seters, 2009-06-30 The biblical story of King David has been interpreted in many different ways arising from the variety of methods used in and the intended objectives of the studies. Does the narrative contain insight into and information about the early history of the Judean monarchy or is it merely a legendary tale about a distant past? Can we identify the story's literary genre its sociohistorical setting and the intention of its author's? Is an appreciation for the wonderful literary qualities of the story compatible with a literary critical investigation of the narrative's compositional and text critical history? Van Seters reviews past scholarship on the David story and in the course of doing so unravels the history of these questions and then presents an extended appraisal of the debate about the social and historical context of the biblical story. From this critical foundation Van Seters proceeds to

offering a detailed literary analysis of the story of David from his rise to power under Saul to his ultimate succession by Solomon

Founding Territorial Cults in Early Japan G. Domenig, 2023-12-11 The first book that deals with the territorial cults of early Japan by focusing on how such cults were founded in ownerless regions Numerous ancient Japanese myths and legends are discussed to show that the typical founding ritual was a two phase ritual that turned the territory into a horizontal microcosm complete with its own terrestrial heaven inhabited by local deities Reversing Mircea Eliade's popular thesis the author concludes that the concept of the human made horizontal microcosm is not a reflection but the source of the religious concept of the macrocosm with gods dwelling high up in the sky The open access publication of this book has been published with the support of the Swiss National Science Foundation

Paradigms of Authority in the Carver Canon Péter Bocsor, 2015-04-16 Raymond Carver's personal story as a writer became publicly known through an unusually intense cooperation with his literary agent Gordon Lish Carver's career can be viewed as the story of a fight for the control of his writerly voice in which he is doomed to fail due to the heterogeneity characterizing the genesis of his works The parallel versions of the same stories in the Carver canon not only pose a threat to any attempt of a simplistic evaluation of his literary legacy but also raise questions about the authority of the writer The author of the present book considers the choices Carver Lish and other editors made part of the collective social act of manufacturing and attempts to carry out a neutral analysis of the various versions
