NOW, THEREFORE, in consideration of the mutual covenants and promises made by the parties hereto, the Company and the Employee (each individually referred to as a "Party" and collectively as "Parties") agree to the following terms:

1. **NON-COMPETITION.** For the complete duration of the Agreement, and (time period) after the termination of the Employee's relationship with the Company, the Employee will not so engage as an employee, officer, director, partner, consultant, agent or owner to be associated in any other capacity with a competing company. This means that the Employee must not work for (business type) in (geographic area).
2. **EMPLOYEE ACKNOWLEDGMENTS.** The Employee acknowledges that they have had the opportunity to a) Obtain legal counsel to review this agreement b) Negotiate the terms of this agreement before signing it. Both parties also agree that the restrictions imposed are fair and necessary to protect the Company's legitimate business interests. Finally, the Employee agrees that these restrictions are reasonable and the enforcement of this agreement does not constitute a threat to their livelihood.
3. **APPLICABLE LAW.** This agreement and interpretation of its terms shall be governed by the laws of (state) and subject to the exclusive jurisdiction of the federal and state courts located in (County, State).

IN WITNESS WHEREOF, both Parties agree and give consent and authority to this agreement, as duly authorized below.

Introduction to the Smart Court System-of-Systems Engineering Project of China Jianfeng Xu, Fuhui Sun, Qiwei Chen, 2022-06-30 This book discusses the overall development and use of smart courts from the perspective of system of systems engineering SoSE and its methodology analyzes the relationships between the components structures environments and functions of various systems and illustrates the basic approaches to system design specification integration operation and management As the general introductory book of the China Smart Court Development Series this book provides an overview of the development of Chinese people's courts in the application of information technology over the past two decades and outlines the key areas of exploration in the Smart Court SoSe project centered on the development practices during the 13th Five Year Plan period It also forecasts the future development and evolution of the smart court information system The key topics introduced in the book including the overall design of complex information systems integrated interconnection networks based system integration judicial big data quality control and analytics services various types of AI enabled judicial services quality and efficiency oriented operation and maintenance services for large scale information systems etc all came from the basic research of information science and theories as well as the systems engineering practices of the Smart Court SoSe project They not only reflect the latest findings on systems engineering and architecture methods in China and overseas but also reveal many innovative approaches to SoSE methods and paradigms which can be used for the design and continued development of smart courts at a new and higher starting point It is believed that they can also serve as good examples and reference points for the development in IT application and complex information systems engineering in other sectors

Distance and E-learning in Transition András Szűcs, Alan Tait, Martine Vidal, Ulrich Bernath, 2013-03-01 The rushed development of information and communication technologies and their impact on the world of learning in the last decade have profoundly changed the paradigms scenarios and values at all levels of education The professionalization of tools and practices in addition to the consolidation of academic and practical knowledge has been a major continuing issue throughout these years The annual conferences of the largest European professional community in distance and e learning have been setting the landmarks in this process The selection from this unique knowledge pool demonstrates the deepening and consolidation of knowledge and experience This book presents the developments in the field of open distance and e learning through new technologies methodologies and tools which have profoundly changed the paradigms scenarios and values at all levels of education over the last decade

Public Records Online Michael L. Sankey, 2006 The only Master Guide to online public record searching The sixth edition details nearly 10 000 sites both government agencies and private sources This new edition is completely revised and updated

Women Online Steven D. Atkinson, Judith Hudson, 1990 Women Online focuses on the problems of investigating interdisciplinary topics in women's studies working with controlled vocabularies and inconsistent indexing and locating feminist scholarship The authoritative contributors to the book not only

analyze these problems in general terms but also suggest practical strategies for making online research more effective and productive The sixteen chapters in this much needed book are organized into three broad categories covering disciplines such as humanities and social sciences format of the material covered such as non bibliographic and cited reference databases and specific topics such as lesbian studies and women of color Chapter authors employ a variety of useful methods to analyze issues of coverage and content They compare the results of controlled vocabulary and free text or full text searching and make use of search examples cited reference and multi file searching and bibliometric techniques including analysis of recall precision overlap relevancy uniqueness and trends in file growth The Database Matrix provides an alphabetical listing of files discussed in the book and serves as a directory for online research in women s studies Women Online will be useful to librarians scholars and students who search databases as well as to producers who design and market them
