If using a reusable exhalation valve, ensure that the diaphragm is seated properly 5. Try a different exhalation valve 6. Make sure that oxygen is not titrated directly into the breathing circuit
Exhalation valve makes honking noise	Low compliance/high resistance of circuit system	1. Make sure breathing circuit is 22 mm ID (regardless of patient size) and at least 8 ft long for small patients 2. If using approved disposable exhalation valve with PEEP > 10 cmH₂O, remove flow deflector at bottom of valve
External power After plugging into external A.C or D.C. Ext Power indicator on panel does not light after one minute		Check that power cord is pushed in all the way on both ends. If D.C., make sure outlet is active (some car outlets are not active with key off)
