The Language-Rich Classroom Pérsida Himmele, William Himmele, 2009-07-13 Today's multilingual classrooms challenge even the best teachers' skills. As teachers strive to help all students reach their full potential, the needs of English language learners (ELLs) can seem overwhelming. In *The Language Rich Classroom*, educators and consultants Pérsida and William Himmele present a five-part research-based framework (CHATS) that teachers can use to help ELLs as well as other students attain greater language skills and deeper content comprehension. This field-tested framework includes diagnostic tools, comprehensive overviews on second language acquisition and teaching techniques to boost language learning in any classroom. The CHATS framework provides teachers with C (content), reading strategies, H (higher order thinking skills), A (assessment tools), T (total participation techniques), and S (scaffolding strategies). The book also contains helpful planning worksheets, assessment logs, and scaffolding tools. Teachers will also find more than 25 classroom and team-building activities and specific tips about how these activities benefit ELLs. *The Language Rich Classroom* is an invaluable resource that will help teachers foster greater gains in students' language development, increase their comprehension across all subject areas, and build classrooms that are engaging and welcoming to students of all cultures. *The Essence of Teaching Social Studies* James A. With sections on foundations, subject areas, and best practices, this text explains the intersection between the modelling role of social studies teachers as democratic citizens, social studies fields of study, and strategies implemented in the classroom to encourage students' critical thinking and values formation. *Advanced Reading Instruction in Middle School* Janice I. Robbins, 2021-09-03 Addressing the needs of academically advanced young adolescents in reading is a tall order. *Advanced Reading Instruction in Middle School* offers teachers a structured process for guiding students in preparing for collaborative discussions about books. Structured discussions enable students to examine the author's work together as they respond to essential questions using evidence from the reading. Students are directed to make personal connections to story characters, plots, and settings. They are asked to explore the writer's craft through the examination of selected words, structures, settings, and literary devices incorporated in the novels. This guide includes specific literary analysis activities suitable for the six types of fiction presented and offers annotated lists of recommended advanced-level books of each type, including those recommended in the CCSS. The guide also supports the social and emotional issues of early adolescents, offering specific works suitable for a range of common topics such as identity, friendships, high expectations, and feelings of isolation.
