The West Coast Modern House Greg Bellerby, 2014 A landmark study of one of Canada most important architectural movements The West Coast Modern House chronicles the development of Vancouver residential architecture from the 1940 s through its continued influence on contemporary practice The post war era in Vancouver defined what has become popularly know as the West Coast Style Through the work of seminal figures such as BC Binning Ned Pratt Ron Thom Fred Hollingsworth Douglas Simpson Barry Downs and Arthur Erickson Vancouver architects won national awards and international recognition for their innovative house designs This period is now seen as one of the most important in the cities architectural history Focusing on the years from 1940 to the mid 1960 s The West Coast Modern House features over fifty examples of modern houses The book is richly Illustrated by photographs taken at the time by noted architectural photographers Graham Warrington Selwyn Pullan and John Fulker Essays by Greg Bellerby Jana Tyner and Chris Macdonald elaborate on the history and innovative design strategies of the early period through to an examination of the ways modern architectural concerns are being utilized by contemporary practitioners The West Coast

Modern House enables the reader to come to a greater understanding of the significance of modern residential architecture on the west coast and the persistence and relevance of its innovative design material and construction strategies **San Francisco Modern** Zahid Sardar,1998-09 This book surveys modernism as interpreted in the private residences of the San Francisco Bay Area An eclectic array of over 30 homes are presented showcasing modernist ideas in the context of everyday life **Mid-Century Modern Interiors** Lucinda Kaukas Havenhand,2019-01-24 Mid Century Modern Interiors explores the history of interior design during arguably its most iconic and influential period The 1930s to the 1960s in the United States was a key moment for interior design It not only saw the emergence of some of interior design s most globally important designers it also saw the field of interior design emerge at last as a profession in its own right Through a series of detailed case studies this book introduces the key practitioners of the period world renowned designers including Ray and Charles Eames Richard Neutra and George Nelson and examines how they developed new approaches by applying systematic and rational principles to the creation of interior spaces It takes us into the mind of the designer to show how they each used interior design to express their varied theoretical interests and reveals how the principles they developed have become embodied in the way interior design is practiced today This focus on unearthing the underlying ideas and concepts behind their designs rather than on the finished results creates a richer more conceptual understanding of this pivotal period in modernist design history With an extended introduction setting the case studies within the broader context of twentieth century design and architectural history this book provides both an introduction and an in depth analysis for students and scholars of interior design architecture and design history **Architecture and Design at the Museum of Modern Art** Thomas S. Hines,2019-01-22 A comprehensive and fascinating look at the history of the Museum of Modern Art s Architecture and Design Department under the leadership of the influential curator Arthur Drexler Arthur Drexler 1921 1987 served as the curator and director of the Architecture and Design Department at the Museum of Modern Art MOMA from 1951 until 1986 the longest curatorship in the museum s history Over four decades he conceived and oversaw trailblazing exhibitions that not only reflected but also anticipated major stylistic developments Although several books cover the roles of MoMA s founding director Alfred Barr and the department s first curator Philip Johnson this is the only in depth study of Drexler who gave the department its overall shape and direction During Drexler s tenure MoMA played a pivotal role in examining the work and confirming the reputations of twentieth century architects among them Frank Lloyd Wright Le Corbusier Richard Neutra Marcel Breuer and Ludwig Mies van der Rohe Exploring unexpected subjects from the design of automobiles and industrial objects to a reconstruction of a Japanese house and garden Drexler s boundary pushing shows promoted new ideas about architecture and design as modern arts in contemporary society The department s public and educational programs projected a culture of popular accessibility offsetting MoMA s reputation as an elitist institution Drawing on rigorous archival research as well as author Thomas S Hines s firsthand experience working with Drexler
