the world and ourselves With a mix of brilliantly conceived studies and surprising on the ground discoveries she shows that much of the diversity in the way we think and act derives from a key difference how tightly or loosely we adhere to social norms Just as DNA affects everything from eye color to height our tight loose social coding influences much of what we do Why are clocks in Germany so accurate while those in Brazil are frequently wrong Why do New Zealand s women have the highest number of sexual partners Why are red and blue states really so divided Why was the Daimler Chrysler merger ill fated from the start Why is the driver of a Jaguar more likely to run a red light than the driver of a plumber s van Why does one spouse prize running a tight ship while the other refuses to sweat the small stuff In search of a common answer Gelfand spent two decades conducting research in more than fifty countries Across all age groups family variations social classes businesses states and nationalities she has identified a primal pattern that can trigger cooperation or conflict Her fascinating conclusion behavior is highly influenced by the perception of threat A useful and engaging take on human behavior Kirkus Reviews with an approach that is consistently riveting Rule Makers Ruler Breakers thrusts many of the puzzling attitudes and actions we observe into sudden and surprising clarity
