## An Ex-FBI Agent's Guide to Speed Reading People

by Joe Navarro  
w/ Marvin Karlins, Ph.D. 2008

*Below is information about the book and following are my notes about important 'tells' listed in his writing:*

**What Every BODY is Saying: An Ex-FBI Agent's Guide to Speed-Reading People** by Joe Navarro and Marvin Karlins

Read this book and send your nonverbal intelligence soaring. Joe Navarro, a former FBI counterintelligence officer and a recognized expert on nonverbal behavior, explains how to "speed-read" people: decode sentiments and behaviors, avoid hidden pitfalls, and look for deceptive behaviors. You'll also learn how your body language can influence what your boss, family, friends, and strangers think of you. You will discover:

- \* The ancient survival instincts that drive body language
- \* Why the face is the least likely place to gauge a person's true feelings
- \* What thumbs, feet, and eyelids reveal about moods and motives
- \* The most powerful behaviors that reveal our confidence and true sentiments

### 10 Commandments of Observing/Decoding Non-Verbal Communication Successfully

1. **Be a competent observer of your environment.** Concerted observation is essential. Become aware of the world around you; with constant practice you can develop better skills.
2. **Observing in context is key to understanding nonverbal behavior.** (ex. In an accident you expect people to shake, be in shock, look dazed, etc)
3. **Learn to recognize and decode nonverbal behaviors that are universal.** (ex. pursed lips= troubled, something is wrong; universal information)
4. **Learn to recognize and decode idiosyncratic nonverbal behaviors.** Notice behavioral patterns in people every day; notice more movements etc.
5. **When you interact with others, try to establish their baseline behaviors.** What is normal or stressed in their face, how they typically sit, where they place their hands/feet/posture/etc.
6. **Always try to watch people for multiple tells- behaviors that occur in clusters or in succession.** Your accuracy will be enhanced when you observe multiple tells/clusters of behavior/body signals- like a jigsaw puzzle.
7. **It's important to look for changes in a person's behavior that can signal changes in thoughts, emotions, interest, or intent.** Sudden changes in behavior can help reveal how a person is processing info/adapting to emotional events (ex. if they got good/bad news)
8. **Learning to detect false or misleading nonverbal signals is also critical.** It takes practice/experience to differentiate between authentic and misleading cues.
9. **Knowing how to distinguish between comfort and discomfort will help you to focus on the most important behaviors for decoding nonverbal communications.** Ask yourself if it looks like comfort behavior (contentment, happiness, relaxation) or if it looks like discomfort (displeasure, unhappiness, stress, anxiety, tension).
10. **When observing others, be subtle about it.** Don't make yourself obvious.

[Summary of What Every BODY is Saying](#) Alexander Cooper, 2021-10-03 Summary of What Every BODY is Saying One of the most influential communication methods we use in our daily interactions is our non verbal or body language It is the kind of communication that ignites the emotions and reactions of our intestinal level Research has shown that understanding body language increases your ability to achieve anything you want in a given situation To improve body language and project an open presence eye contact is the key Eye interaction is one of the most vital means of communication Using direct eye contact while interacting with others can change the way people see them When people begin to speak directly in the eyes of a person they are considered safe reliable and capable Hand gestures and facial expressions are the second levels of change that can be visualized with an open presence These communication methods are ideal for improving the ability to communicate clearly and effectively The skillful use of open hand movements and the expressive effect of the face produce a greater impact when speaking visually stimulating the listener and increasing the amount of information provided during the interaction Even when we are children they teach us that good children are sitting correctly with their legs together and hands crossed in front of them The stimulus to limit physical space such as children can produce some of the characteristics found in the body language of adult presence To counteract this effect one can begin to assume the characteristics of the open presence body language and integrate those

paths into their natural state of being Upon completing this change in behavior the same impressions and nonverbal messages as the open presence counterparts will be displayed We could spend years learning and developing effective body language skills with such an important skill The fact is that most people underestimate the importance of body language until they seek a better understanding of human behavior in a personal relationship or gain an advantage in a highly competitive business situation The mastery of body language allows people to interpret the meaning behind certain gestures and body movements and to understand how messages can be projected and effectively communicated when dealing with others As a result the overall effectiveness of interpersonal relationships has increased considerably The type of closed spoken body language is described in people who bend the body around the midline of the body which extends from the top of the head to the feet directly towards the center of the body The physical qualities that create this type of presence are the feet very close together the arms close to the body the hands crossed or joined in front of the body the small movements of the hands the shoulders forward and the eyes concentrated at eye level Here is a Preview of What You Will Get A Full Book Summary An Analysis Fun quizzes Quiz Answers Etc Get a copy of this summary and learn about the book [Summary](#) The Jewmanberg,2018-01-29 BUSY HUMAN S SALES PITCH You are a busy human You don t have time to read piles of books think about the best way to understand them and then write possibly the most awesome notes on the planet Luckily for you I don t really have much going on in my life so here we are In this volume I provide you my dear reader with a simple and entertaining summary of What Every Body Is Saying An Ex FBI Agent s Guide to Speed Reading People by Joe Navarro with Marvin Karlins Ph D This is not any old summary I ve tried hard to present this tremendously useful work in a very understandable manner and I ve added just enough humor to keep you entertained throughout the journey I hope you ll enjoy the ride Thanks for reading you busy human The Mighty Jewmanberg [SUMMARY](#) Edition Shortcut (author),1901

*The Only Sales Guide You'll Ever Need* Anthony Iannarino, 2016-10-11 The USA Today bestseller by the star sales speaker and author of The Sales Blog that reveals how all salespeople can attain huge sales success through strategies backed by extensive research and experience Anthony Iannarino never set out to become a salesman let alone a sales manager speaker coach or writer of the most prominent blog about the art and science of great selling He fell into his profession by accident as a day job while pursuing rock and roll stardom Once he realized he d never

become the next Mick Jagger Iannarino turned his focus to a question that's been debated for at least a century: Why are a small number of salespeople in any field hugely successful while the rest get mediocre results at best? The answer is simple: it's not about the market, the product, or the competition; it's all about the seller. And consequently, any salesperson can sell more and better all the time. Over twenty-five years, Iannarino has boiled down everything he's learned and tested into one convenient book that explains what all successful sellers, regardless of industry or organization, share: a mind set of powerful beliefs and a skill set of key actions including Self-discipline, How to keep your commitments to yourself and others, Accountability, How to own the outcomes you sell, Competitiveness, How to embrace competition rather than let it intimidate you, Resourcefulness, How to blend your imagination, experience, and knowledge into unique solutions, Storytelling, How to create deeper relationships by presenting a story in which the client is the hero and you're their guide, Diagnosing, How to look below the surface to figure out someone else's real challenges and needs. Once you learn Iannarino's core strategies, picking up the specific tactics for your product and customers will be that much easier. Whether you sell to big companies, small companies, or individual consumers, this is the book you'll turn to again and again for proven wisdom, strategies, and tips that really work.

### **Win-Win Influence: How to Enhance Your Personal and Business Relationships (with NLP)**

Roger R. W. Ellerton, 2012. You can get anything in the world that you want if you help somebody else get something they want. Zig Zigler. Whether you are a parent, son, daughter, friend, employee, manager, or salesperson, you are constantly influencing others to accept you, your ideas, products, or services. Those who masterfully present themselves and their ideas in a win-win manner get ahead. Those who do not may reap short-term gains and eventually fail in their objective. Influence is critical in leadership, negotiation, teamwork, sales, resolving family issues, and getting others to buy into your ideas. Follow and practice the concepts, tips, and processes described in this book and improve your influence results with anyone in a manner that achieves a win-win outcome. The emphasis is on expanding your influence skills and results in everyday situations. For example, through this book, you will learn how to Enhance your personal and business relationships, Create the career you want, Become a stronger negotiator, Enjoy the family life you desire, Create healthy work environments, Be who you choose to be. Whether you realize it or not, you are constantly influencing other people's thoughts. You do this through your actions as well as your inactions. One of the best, if not the best, communication models is neuro-linguistic programming (NLP), which forms a fundamental part of this book. How important is the ability to influence others? No matter whether you are a businessperson, teacher, parent, stay-at-home spouse, employee, or manager, dealing with people is probably the most important activity you undertake throughout the course of your day. A number of years ago, research sponsored by the Carnegie Foundation for the Advancement of Teaching and later confirmed at the Carnegie Institute of Technology discovered that even in engineering, about 15 percent of one's financial success is due to one's technical knowledge and about 85 percent is due to interpersonal skills. If you are ready to be the difference that makes the difference in creating better results in your life,
