**What Is Sustainable** Richard Adrian Reese, 2011-09-03 A hurricane called Peak Everything is rapidly approaching and we are not prepared for it Looking through doom colored glasses the future appears turbulent and chaotic for obvious reasons But when we switch to rose colored glasses it s thrilling to see that dawn is breaking out all over A dysfunctional way of life is dying and this opens up a wide variety of new possibilities some of which could lead to a genuinely sustainable future No matter what we do the Earth will heal It will heal if we self destruct and it will heal if we remember healthy values and lifestyles Are we capable of intelligent change Yes But problems that took centuries to create will not be resolved in a single generation The purpose of this book is to encourage the healing process to propose important questions and to examine our reality from a different perspective One thing is certain the future demands a radically more intelligent worldview and skill set and a genuinely healthy future will have little in common with the way we live today The four directions of this book are sustainable population sustainable worldview sustainable food and reconnection with our past our ancestors and our non human relatives the living world Subjects discussed include ecological history domestication voluntary simplicity collapse materialism peak energy peak food peak population antibiotics aquaculture and agroforestry

Broken but Buoyant Judy Honey, 2021-11-19 After the tragic suicide of our youngest child David at the age of thirty four I was navigating in a strange new world I have always written and for years kept a journal About a year after his death I began to write a poem each morning I imposed my own guidelines write

about whatever pops into my mind it must fit onto one page of my journal and no editing I have used the title of the book to classify the poems into categories as the boat becomes buoyant again after being broken I have learned a lot about grief most importantly that a person does not move on leaving the grief behind but rather learns to move forward with the grief ever present Cherishing the love lost is most important but I am learning that there can be times of being buoyant and accomplishment is still possible Memories have helped me I m sure you have memories that will come to mind as you read the simple things I remember and cherish Some people might say my life is limited but there is life to live whatever the circumstances The section on everyday occurrences is one of my favorites Today I continue to write And some days the grief still overcomes my thoughts and my writing Leaning into the grief acknowledging it as a real part of my life may be difficult at the time but honesty is important to grow and develop I hope you read and relax as you enjoy the poems And that maybe just maybe they can help shed some light on your own journey
