Peter Burke, 2015-12-29 What is the history of knowledge This engaging and accessible introduction explains what is distinctive about the new field of the history of knowledge or as some scholars say knowledges in the plural and how it differs from the history of science intellectual history the sociology of knowledge or from cultural history Leading cultural historian Peter Burke draws upon examples of this new kind of history from different periods and from the history of India East Asia and the Islamic world as well as from Europe and the Americas He discusses some of the main concepts used by scholars working in the field among them order of knowledge situated knowledge and knowledge society This book tells the story of the transformation of relatively raw information into knowledge via processes of classification verification and so on the dissemination of this knowledge and finally its employment for different purposes by governments corporations or private individuals A concluding chapter identifies central problems in the history of knowledge from triumphalism to relativism together with attempts to solve them The only book of its kind yet to be published What is the History of Knowledge will be essential reading for all students of history and the humanities in general as well as the interested general reader

The History of Knowledge Johan Östling, David Larsson Heidenblad, 2024-01-18 This Element provides a pedagogical overview of the history of knowledge including its main currents distinguishing ideas and key concepts However it is not primarily a state of the art overview but rather an argumentative contribution that seeks to push the field in a certain direction towards studying knowledge in society and knowledge in people's lives Hence the history of knowledge envisioned by the authors is not a rebranding of the history of science and intellectual history but rather a reinvigoration of social and cultural history This implies that many different forms of knowledge should be objects of study By drawing on ongoing research from all across the world dealing with different time periods and problems the authors demonstrate that the history of knowledge can enrich our understanding of past societies This title is also available as Open Access on Cambridge Core

A History of Knowledge Charles Van Doren, 1992-03-17 A one volume reference to the history of ideas that is a compendium of everything that humankind has thought invented created considered and perfected from the beginning of civilization into the twenty first century Massive in its scope and yet totally accessible A HISTORY OF KNOWLEDGE covers not only all the great theories and discoveries of the human race but also explores the social conditions political climates and individual men and women of genius that brought ideas to fruition throughout history Crystal clear and concise Explains how humankind got to know what it knows Clifton Fadiman Selected by the Book of the Month Club and the History Book Club

A Social History of Knowledge II Peter Burke, 2013-04-17 Peter Burke follows up his magisterial Social History of Knowledge picking up where the first volume left off around 1750 at the publication of the French Encyclopédie and following the story through to Wikipedia Like the previous volume it offers a social history or a retrospective sociology of knowledge in the sense that it focuses not on individuals but on groups institutions collective practices and general trends

The book is divided into 3 parts The first argues that activities which appear to be timeless gathering knowledge analysing disseminating and employing it are in fact time bound and take different forms in different periods and places The second part tries to counter the tendency to write a triumphalist history of the growth of knowledge by discussing losses of knowledge and the price of specialization The third part offers geographical sociological and chronological overviews contrasting the experience of centres and peripheries and arguing that each of the main trends of the period professionalization secularization nationalization democratization etc coexisted and interacted with its opposite As ever Peter Burke presents a breath taking range of scholarship in prose of exemplary clarity and accessibility This highly anticipated second volume will be essential reading across the humanities and social sciences *Documentary History of Education in Upper Canada, from the Passing of the Constitutional Act of 1791 to the Close of Dr. Ryerson's Administration of the Education Department in 1876: 1841-1843* John George Hodgins,1897 The Cambridge History of English Literature Sir Adolphus William Ward,Alfred Rayney Waller,1916 **History of the Problems of Philosophy: Introduction. pt.
