Wired for Sound Paul D. Greene, Thomas Porcello, 2005 Ethnographically grounded studies of technology in global music

The Mislabeled Child Brock Eide, Fernet Eide, 2006-08-01 An incredibly reassuring approach by two physicians who specialize in helping children overcome their difficulties in learning and succeeding in school For parents teachers and other professionals seeking practical guidance about ways to help children with learning problems this book provides a comprehensive look at learning differences ranging from dyslexia to dysgraphia to attention problems to giftedness In *The Mislabeled Child* the authors describe how a proper understanding of a child's unique brain based strengths can be used to overcome many different obstacles to learning They show how children are often mislabeled with diagnoses that are too broad ADHD for instance or are simply inaccurate They also explain why medications are often not the best ways to help children who are struggling to learn The authors guide readers through the morass of commonly used labels and treatments offering specific suggestions that can be used to help children at school and at home This book offers extremely empowering information for parents and professionals alike The

Mislabeled Child examines a full spectrum of learning disorders from dyslexia to giftedness clarifying the diagnoses and providing resources to help The Eides explain how a learning disability encompasses more than a behavioral problem it is also a brain dysfunction that should be treated differently

I Can Hear You Whisper Lydia Denworth,2014-04-17 A skilled science translator Denworth makes decibels teslas and brain plasticity understandable to all Washington Post Lydia Denworth s third son Alex was nearly two when he was identified with significant hearing loss that was likely to get worse Denworth knew the importance of enrichment to the developing brain but had never contemplated the opposite deprivation How would a child s brain grow outside the world of sound How would he communicate Would he learn to read and write An acclaimed science journalist as well as a mother Denworth made it her mission to find out interviewing experts on language development inventors of groundbreaking technology Deaf leaders and neuroscientists at the frontiers of brain plasticity research I Can Hear You Whisper chronicles Denworth s search for answers and her new understanding of Deaf culture and the exquisite relationship between sound language and learning

Coming to Our Senses Susan R. Barry,2021-06-08 A neurobiologist reexamines the personal nature of perception in this groundbreaking guide to a new model for our senses We think of perception as a passive mechanical process as if our eyes are cameras and our ears microphones But as neurobiologist Susan R Barry argues perception is a deeply personal act Our environments our relationships and our actions shape and reshape our senses throughout our lives This idea is no more apparent than in the cases of people who gain senses as adults Barry tells the stories of Liam McCoy practically blind from birth and Zohra Damji born deaf in the decade following surgeries that restored their senses As Liam and Zohra learned entirely new ways of being Barry discovered an entirely new model of the nature of perception *Coming to Our Senses* is a celebration of human resilience and a powerful reminder that before you can really understand other people you must first recognize that their worlds are fundamentally different from your own

Artificial Hearing, Natural Speech Joanna Hart Lowenstein,2013-09-13 This book explores the interface between speech perception and production through a longitudinal acoustic analysis of the speech of postlingually deaf adults with cochlear implants electrode and computer prostheses for the inner ear in cases of nerve deafness The methodology is based on the work of Joseph Perkell at MIT replicating and extending analysis to subjects with modern digital cochlear implants and processor technology Lowenstein also examines how cochlear implants are portrayed in dramatic and documentary television programs the scientific accuracy of those portrayals and what expectations might be taken away by viewers particularly given modern society s view that technology can overcome the frailties of the human body

Baby Boomers and Hearing Loss John M. Burkey,2006-06-14 In *Baby Boomers and Hearing Loss* audiologist John Burkey shows readers how they can continue to enjoy youthful living regardless of whether their hearing abilities are undiminished or severely compromised In a reassuring and straightforward style Burkey explains the typical causes of hearing loss from genetic factors to years of exposure to loud noises and demystifies the sometimes confusing results of a hearing test

Fortunately new technologies and advances in medicine have made it easier to detect signs of initial hearing loss and to prevent it from becoming a serious problem For those who have already sustained some damage the author suggests ways to manage daily activities by using a range of techniques equipment and medical procedures His suggestions include minor changes such as using a vibrating alarm clock rather than one that is sound based More dramatic but often highly effective options including reconstructive surgery cochlear implants and bone anchored hearing aids are also described In his previous award winning book *Overcoming Hearing Aid Fears The Road to Better Hearing* Burkey addressed common fears concerns and misconceptions that people have about choosing and using hearing aids In this second indispensable volume he offers a comprehensive guide on how to cope with and prevent hearing impairment For a generation that refuses to slow down or quietly accept limitations this book is essential reading
