The Encyclopedia of Housing, Second Edition Andrew T. Carswell, 2012-05-31 Since publication of the groundbreaking Encyclopedia of Housing in 1998 many issues have assumed special prominence within this field and indeed within the global economy For instance the

global economic meltdown was spurred in large part by the worst subprime mortgage crisis we've seen in our history. On a more positive note, the sustainability movement and green development has picked up considerable steam and given the priorities and initiatives of the current U.S. administration this will only grow in importance and increased attention has been given in recent years to the topic of indoor air quality. Within the past decade, as well, the Baby Boom Generation began its march into retirement and senior citizenship which will have increasingly broad implications for retirement communities and housing, assisted living facilities, aging in place, livable communities, universal design, and the like. Finally, within the last twelve years, an emerging generation of young scholars has been making significant contributions to the field. For all these reasons and more, we are pleased to present a significantly updated and expanded Second Edition of *The Encyclopedia of Housing*.

From Marriage to the Market Susan Thistle, 2006-08-22 Publisher description *Servants of Globalization* Rhacel Parreñas, 2015-08-26 *Servants of Globalization* offers a groundbreaking study of migrant Filipino domestic workers who leave their own families behind to do the caretaking work of the global economy. Since its initial publication, the book has informed countless students and scholars and set the research agenda on labor migration and transnational families. With this second edition, Rhacel Salazar Parreñas returns to Rome and Los Angeles to consider how the migrant communities have changed. Children have now joined their parents. Male domestic workers are present in significantly greater numbers. And perhaps most troubling, the population has aged, presenting new challenges for the increasingly elderly domestic workers. New chapters discuss these three increasingly important constituencies. The entire book has been revised and updated, and a new introduction offers a global comparative overview of the citizenship status of migrant domestic workers. *Servants of Globalization* remains the defining work on the international division of reproductive labor.
