Young Single Homeless:

Young Single Homeless Rachel Cumming, 2014-07-21 This book is centred around a hostel for young homeless people. It tells the stories of several of the residents namely Angela Trevor and Lee their backgrounds characters and how they come to be living in their teenage years at a hostel for the homeless. It leads the reader into their view of the world through their eyes and reasoning it portrays the day to day workings of the hostel gives insights into the lives of the residents and illustrates the stresses and strains that the staff working there endure. As well as the residents the book focuses on the characters of two staff members Joe a Project Worker and his Manager Fiona. The book traces through past and present day and through the culmination of events leads Joe down a dangerous path towards the unseen world of social deprivation and crime and to agonising over social and moral dilemmas. This book could be described as bitter sweet. It is humorous in places yet is a touching story which by its subject matter cannot help treading on thorny political and social issues such as youth homelessness child abuse and crime. This book although fictional has been inspired by real events and true characters. To protect confidentiality names have been changed and composite characters produced rather than portraits. There is no mention of the Town Housing Association or the hostel itself. This book is not about people living on the streets but more about the individual lives of the residents and the circumstances that lead them to become homeless. *Housing and Social Policy* Peter Somerville, Nigel Sprigings, 2005 The chapters in this book each consider a specific social category such as class gender or disability and evaluate the experience and understanding of housing and social policy under these categories.

Housing and Homelessness Sophie Watson, 2025-11-18 Houses do not simply represent a form of shelter in addition they embody the dominant ideology of a society and reflect the way in which that society is organised. Originally published in 1986 and written by two leading authorities on the subject this book tackles the problems of housing homelessness and women in the family from a feminist perspective. It explores how housing helps to reproduce women's role within the family both today and historically. It looks at the way British society in particular and western society in general defines and creates housing needs. It discusses the way housing is provided and allocated to exclude specific forms of household and describes the experiences of a particular group single women upon whom these processes have profound impact. Making effective use of interview material the authors analyse the experience and needs of women without secure accommodation. Their study will be a useful text on social policy and welfare courses and with its strong political implications will also be of great interest to community workers and to local authority housing departments. *Building Young Lives* Danny Levine, Steve Platt, 1989

Youth Homelessness Susan Hutson, Mark Liddiard, 1994-08-24 Drawing on a broad range of international studies this book looks in detail at how youth homelessness is variously defined measured and explained as well as discussing the solutions which are usually proposed for it. Yet this book is more than simply a description of youth homelessness. It uses original material to show how youth homelessness like other issues can be differently presented by agencies the media

academics politicians and by those directly affected in this case young homeless people themselves

Young People, Housing and Social Policy Julie Rugg, 2002-01-22 Presenting up to date empirical research on the subject of young people housing and social policy in contemporary Britain this book considers the issue of young people's early housing histories in the context of a range of government policy initiatives aimed at the group It offers a critique of aspects of social policy that specifically address the housing of young people Topics covered include young people leaving care young people in the parental home youth homelessness housing services for young people students in the private rented sector young owner occupiers housing benefit for the under 25s young single parent families young people and housing in rural areas social housing

International Perspectives on Homelessness Valerie Polakow, Cindy Guilleen, 2001-08-30 Homelessness strikes in all types of nations from wealthy western nations to poor undeveloped countries Each government and culture attends to this worldwide problem differently This work collects eleven case studies of selected countries from around the world in order to offer a wide perspective on the dilemma of homelessness Students can use this ready reference to compare and contrast homelessness populations analyze the ways in which various countries approach this issue and to evaluate what is precluding and encouraging this reaching issue The problem of homelessness is clearly defined here from a global perspective In addition the history and resulting conflicts that have risen from homelessness are outlined This ready reference analyzes the metamorphosis of the homelessness what solutions have been suggested and how effective these solutions have been Students will learn to think critically about homelessness and what the future holds for each country as it battles with this seemingly unavoidable occurrence

Singleness in Britain, 1960-1990: Identity, Gender and Social Change Emily Priscott, 2020-07-07 This book contributes to an emerging field of research looking at the significance of marital status to debates about identity and gender It examines representations and experiences of single men and women between 1960 and 1990 using a wide variety of sources including digitized British newspapers social research films and lifestyle literature Whilst much existing work focuses on the early to mid 20th centuries such as Katherine Holden's ground breaking work *The Shadow of Marriage* Singleness in England 1914-1960 this book alternatively examines the impact of the 1960s and the aftermath of changing attitudes to singleness While Holden and others such as Virginia Nicholson in *Singled Out* focus largely on social status and lived experience often through oral testimony the author is just as interested in finding new ways of looking at gender and sexuality This work starts from the premise that a distinct double standard existed in attitudes towards single men and women which continued even after the wave of legislation to improve women's status during the 1960s Examining these often vastly different expectations reveals a complex web of progress continuity and contradictions highlighting the uneven pace of social change and its frequent compromises and limitations Using theoretical approaches such as feminism and queer theory this work explores the impact of changing gender norms on issues including single fatherhood old maid stereotypes and experiences of homelessness It can be used as a study aid for 20th century British

history and gender studies courses and might also interest both established academics and intellectually curious non academic readers The author has made efforts where possible to clearly explain her theoretical approaches and interventions for those who might be unfamiliar with them **Rural Homelessness** Paul Cloke,Paul Milbourne,Rebekah

Widdowfield,2002-03-27 Rural homelessness explores the shifting policy context of homelessness and social exclusion in relation to rural areas in the UK and other countries in the developed world Drawing on the first comprehensive survey of rural homelessness in the UK the book positions these findings within a wider international context **Homelessness and Social Policy** Roger Burrows,Nicholas Pleace,Deborah Quilgars,2013-02-01 The problem of homelessness is deeply emblematic of the sort of society Britain has become What other social phenomena could better epitomise the end of modernity than our seeming inability to adequately respond to the most basic needs shelter warmth food of substantial numbers of our citizens Homelessness and Social Policy offers a dispassionate analysis of the problem of homelessness and the policy responses it has so far invoked By reviewing theoretical and legal conceptualisations of homelessness and presenting extensive statistical analyses this book considers the impact of the experience of homelessness and the policy responses Homelessness and Social Policy will prove to be invaluable to students of social and public policy health studies housing studies and sociology
