Zen And The Beat Way

John Whalen-Bridge, Gary Storhoff

Zen And The Beat Way:

Zen & the Beat Way Alan Watts, 2012-01-13 When Jack Kerouac wrote about Zen in *Dharma Bums* he was echoing the sentiments of the Beat generation who found in Zen credence for a way of life unencumbered by the limits of square society And it was Alan Watts who first wrote and spoke about Zen and Eastern culture in terms accessible to mainstream Western audiences Through his popular radio series *Way Beyond the West* Alan Watts brought listeners a delightful and practical side of Zen which he prescribed as a cure for education and culture By the early sixties his radio programs were renowned for their synthesis of Eastern wisdom and everyday life Several of these radio talks have been selected and edited by Mark Watts Alan's oldest son to introduce a new generation to Zen and the Beat Way Through this collection we see influences of D T Suzuki C G Jung Gary Snyder and others Specific chapters discuss Zen influences on traditional Japanese and Chinese arts and explore the celebrated concept of the controlled accident within the rich tradition of Zen aesthetics Also included is *Return to the Forest* an essay that explores the works of Joseph Campbell on the earliest Beat tradition *A More Perfect Union* Linda Sargent Wood, 2012-08-01 In 1962 when the Cold War threatened to ignite in the Cuban Missile Crisis when more nuclear test bombs were detonated than in any other year in history Rachel Carson released her own bombshell *Silent Spring* to challenge society's use of pesticides To counter the use of chemicals and bombs the naturalist articulated a holistic vision She wrote about a web of life that connected humans to the world around them and argued that actions taken in one place had consequences elsewhere Thousands accepted her message joined environmental groups flocked to Earth Day celebrations and lobbied for legislative regulation Carson was not the only intellectual to offer holistic answers to society's problems This book uncovers a sensibility in post World War II American culture that both tested the logic of the Cold War and fed some of the twentieth century's most powerful social movements from civil rights to environmentalism to the counterculture The study examines important leaders and institutions that embraced and put into practice a holistic vision for a peaceful healthful and just world nature writer Rachel Carson structural engineer R Buckminster Fuller civil rights leader Martin Luther King Jr Jesuit priest and paleontologist Pierre Teilhard de Chardin humanistic psychologist Abraham Maslow and the Esalen Institute and its founders Michael Murphy and Dick Price Each looked to whole systems instead of parts and focused on connections interdependencies and integration to create a better world Though the 60s dreams of creating a more perfect world were tempered by economic inequalities political corruption and deep social divisions this holistic sensibility continues to influence American culture today *The Way of Zen* Alan Watts, 2011-02-16 In his definitive introduction to Zen Buddhism Alan Watts the perfect guide for a course correction in life Deepak Chopra explains the principles and practices of this ancient religion With a rare combination of freshness and lucidity he delves into the origins and history of Zen to explain what it means for the world today with incredible clarity Watts saw Zen as one of the most precious gifts of Asia to the world and in *The Way of Zen* he gives this gift to readers everywhere Perhaps the foremost

interpreter of Eastern disciplines for the contemporary West Watts had the rare gift of writing beautifully the unwritable Los Angeles Times *Virtual Orientalism* Jane Naomi Iwamura, 2011 Saffron robed monks and long haired gurus have become familiar characters on the American pop culture scene Jane Iwamura examines the contemporary fascination with Eastern spirituality and provides a cultural history of the representation of Asian religions in American mass media Initial engagements with Asian spiritual heritages were mediated by monks gurus bhikkhus sages sifus healers and masters from a wide variety of ethnic backgrounds and religious traditions Virtual Orientalism shows the evolution of these interactions from direct engagements with specific individuals to mediated relations with a conventionalized icon Visually and psychically compelling the Oriental Monk becomes for Americans a figure of translation a convenient symbol for alternative spiritualities and modes of being Through the figure of the non sexual solitary Monk who generously and purposefully shares his wisdom with the West Asian religiosity is made manageable psychologically socially and politically for American popular culture

This Is It Alan Watts, 1973-03-12 Six revolutionary essays from the perfect guide for a course correction in life away from materialism and its empty promise Deepak Chopra exploring the relationship between spiritual experience and ordinary life and the need for them to coexist within each of us With essays on cosmic consciousness including Alan Watts account of his own ventures into this inward realm the paradoxes of self consciousness LSD and consciousness and the false opposition of spirit and matter This Is It and Other Essays on Zen and Spiritual Experience is a truly mind opening collection Capturing the Beat Moment Erik Mortenson, 2010-11-02 CHOICE Outstanding Academic Title Examining the moment as one of the primary motifs of Beat writing Erik Mortenson offers the first book to investigate immediacy and its presence and importance in Beat writing Capturing the Beat Moment Cultural Politics and the Poetics of Presence places an expanded canon of Beat writers in an early postmodern context that highlights their importance in American poetics and provides an account of Beat practices that reveal how gender and race affect Beat politics of the moment Mortenson argues that Beat writers focused on action desire and spontaneity to establish an authentic connection to the world around them and believed that living in the moment was the only way in which they might establish the kind of life that led to good writing With this in mind he explores the possibility that far from being the antithesis of their times the Beats actually were a product of them Mortenson outlines the effects of gender and race on Beat writing in the postwar years as well as the Beats attempts to break free of the constrictive notions of time and space prevalent during the 1950s Mortenson discusses such topics as the importance of personal visionary experiences the embodiment of sexuality and the moment of ecstasy in Beat writing how the Beats used photographs to evoke the past and the ways that Beat culture was designed to offer alternatives to existing political and social structures Throughout the volume Mortenson moves beyond the Kerouac Ginsberg Burroughs triumvirate commonly associated with Beat literature discussing women such as Diane di Prima Janine Pommy Vega and Joyce Johnson and African American writers including Bob Kaufman and Amiri Baraka With the inclusion of these authors comes a richer understanding

of the Beat writers value and influence in American literary history *Invented Religions* Carole M. Cusack, 2016-05-06 Utilizing contemporary scholarship on secularization individualism and consumer capitalism this book explores religious movements founded in the West which are intentionally fictional Discordianism the Church of All Worlds the Church of the SubGenius and Jediism Their continued appeal and success principally in America but gaining wider audience through the 1980s and 1990s is chiefly as a result of underground publishing and the internet This book deals with immensely popular subject matter Jediism developed from George Lucas Star Wars films the Church of the Flying Spaghetti Monster founded by 26 year old student Bobby Henderson in 2005 as a protest against the teaching of Intelligent Design in schools Discordianism and the Church of the SubGenius which retain strong followings and participation rates among college students The Church of All Worlds focus on Gaia theology and environmental issues makes it a popular focus of attention The continued success of these groups of Invented Religions provide a unique opportunity to explore the nature of late post modern religious forms including the use of fiction as part of a bricolage for spirituality identity formation and personal orientation **The Relevance of Alan Watts in Contemporary Culture** Peter J. Columbus, 2021-03-31 Whilst accounting for the present day popularity and relevance of Alan Watts contributions to psychology religion arts and humanities this interdisciplinary collection grapples with the ongoing criticisms which surround Watts life and work Offering rich examination of as yet underexplored aspects of Watts influence in 1960s counterculture this volume offers unique application of Watts thinking to contemporary issues and critically engages with controversies surrounding the commodification of Watts ideas his alleged misreading of Biblical texts and his apparent distortion of Asian religions and spirituality Featuring a broad range of international contributors and bringing Watts ideas squarely into the contemporary context the text provides a comprehensive yet nuanced exploration of Watts thinking on psychotherapy Buddhism language music and sexuality This text will benefit researchers doctoral students and academics in the fields of psychotherapy phenomenology and the philosophy of psychology more broadly Those interested in Jungian psychotherapy spirituality and the self and social identity will also enjoy this volume **The Emergence of Buddhist American Literature** John Whalen-Bridge, Gary Storhoff, 2009-06-11 The encounter between Buddhism and American literature has been a powerful one for both parties While Buddhism fueled the Beat movement s resounding critique of the United States as a spiritually dead society Beat writers and others have shaped how Buddhism has been presented to and perceived by a North American audience Contributors to this volume explore how Asian influences have been adapted to American desires in literary works and Buddhist poetics or how Buddhist practices emerge in literary works Starting with early aesthetic theories of Ernest Fenollosa made famous but also distorted by Ezra Pound the book moves on to the countercultural voices associated with the Beat movement and its friends and heirs such as Ginsberg Kerouac Snyder Giorno Waldman and Whalen The volume also considers the work of contemporary American writers of color influenced by Buddhism such as Maxine Hong Kingston Charles Johnson and Lan Cao An interview with

Kingston is included *Beat sound, Beat vision* Laurence Coupe, 2013-07-19 This book reveals the ideas behind the Beat vision which influenced the Beat sound of the songwriters who followed on from them Having explored the thinking of Alan Watts who coined the term Beat Zen and who influenced the counterculture which emerged out of the Beat movement it celebrates Jack Kerouac as a writer in pursuit of a beatific vision On this basis the book goes on to explain the relevance of Kerouac and his friends Allen Ginsberg and Gary Snyder to songwriters who emerged in the 1960s Not only are new detailed readings of the lyrics of the Beatles and of Dylan given but the range and depth of the Beat legacy within popular song is indicated by way of an overview of some important innovators Jim Morrison Joni Mitchell Leonard Cohen Donovan the Incredible String Band Van Morrison and Nick Drake

Immerse yourself in heartwarming tales of love and emotion with is touching creation, Tender Moments: **Zen And The Beat Way** . This emotionally charged ebook, available for download in a PDF format (Download in PDF: *), is a celebration of love in all its forms.
