Through the Dark Continent, Vol. 1 Henry M. Stanley, 2015-08-08. Excerpt from Through the Dark Continent Vol 1. Or the Sources of the Nile Around the Great Lakes of Equatorial Africa and Down the Livingstone River to the Atlantic Ocean. Before these volumes pass irrevocably out of the Author's hands, I take this the last opportunity of addressing my readers. In the first place, I have to express my most humble thanks to Divine Providence for the gracious protection vouchsafed to myself and my surviving followers during our late perilous labours in Africa. In the second place, I have to convey to many friends my thanks for their welcome services and graceful congratulations, notably to Messrs Motta Viegas and J. W. Harrison, the gentlemen of Boma, who by their timely supplies of food electrified the Expedition into new life; to the sympathizing society of Loanda, who did their best to spoil us with flattering kindness; to the kindly community of the Cape of Good Hope, who so royally entertained the homeward-bound strangers; to the directorates of the B. I. S. N. and the P. and O. Companies, and especially to Mr. W. Mackinnon of the former, and Mr. H. Bayley and Captain Thomas H. Black of the latter, for their generous assistance both on my setting out and on my returning to the British Admiralty, and personally to Captain Purvis, senior officer on the West Coast Station, for placing at my disposal H. M. S. Industry, and to Commodore Sullivan, for continuing the great favour from the Cape to Zanzibar, to the officers and sailors of H. M. S. Industry, for the great patience and kindness which they showed to the wearied Africans, and to my friends at Zanzibar, especially to Mr. A. Sparhawk, for their kindly welcome and cordial help. Sex and Race, Volume 3 J. A. Rogers,2014-09-15 In the Sex and Race series first published in the 1940s historian Joel Augustus Rogers questioned the concept of race the origins of racial differentiation and the root of the color problem Rogers surmised that a large percentage of ethnic differences are the result of sociological factors and in these volumes he gathered what he called the bran of history the uncollected unexamined history of black people in the hope that these neglected parts of history would become part of the mainstream body of Western history Drawing on a vast amount of research Rogers was attempting to point out the absurdity of racial divisions Indeed his belief in one race humanity precluded the idea of several different ethnic races The series marshals the data he had collected as evidence to prove his underlying humanistic thesis that people were one large family without racial boundaries Self trained and self published Rogers and his work were immensely popular and influential during his day even cited by Malcolm X The books are presented here in their original editions
