Thuis in de late middeleeuwen Provinciaal Overijssels Museum,1980 A Cultural History of the Medieval Sword

Robert W. Jones,2023 This study takes the sword beyond its functional role as a tool for killing considering it as a cultural artifact and the broader meaning and significance it had to its bearer **At Home in Renaissance Bruges** Julie De

Groot,2022-03-29 Domestic materiality in a remarkable European city How did citizens in Bruges create a home What did an ordinary domestic interior look like in the sixteenth century And more importantly how does one study the domestic culture of bygone times by analysing documents such as probate inventories These questions seem straightforward yet few endeavours are more challenging than reconstructing a sixteenth century domestic reality from written sources This book takes full advantage of the inventory and convincingly frames household objects in their original context of use Meticulously connecting objects people and domestic spaces the book introduces the reader to the rich material world of Bruges citizens in the Renaissance their sensory engagement their religious practice the role of women and other social factors By weaving insights from material culture studies with urban history At Home in Renaissance Bruges offers an appealing and holistic mixture of in depth socio economic cultural and material analysis In its approach the book goes beyond heavy handed theories and stereotypes about the exquisite taste of aristocratic elites focusing instead on the domestic materiality of Bruges middling groups Evocatively illustrated with contemporary paintings from Bruges and beyond this monograph shows a nuanced picture of domestic materiality in a remarkable European city *Manors and Markets* Bas van Bavel,2010-03-25

economico: innovazione di processo e prodotto, nuove strategie commerciali, comportamento dei consumatori / Fashion as an economic engine: process and product innovation, commercial strategies, consumer behavior

Giampiero Nigro,2022-05-03 The study of the textile sector has always been central to economic history from reconstructions of the dynamic growth in the medieval wool industry to the rise of silk and light and mixed fabrics in the modern era to the driving role of cotton in the industrialisation process Although the dynamics of textile manufacturing are closely linked to the transformations of fashion economic history has long neglected its role as a factor in economic change treating it primarily as a kind of exogenous catalyst This book makes a decisive contribution to the understanding of a fundamental transformation the consequences of which are projected into contemporary society but which matured in pre industrial times the advent of

fashion **Erasmus and His Books** Egbertus Van Gulik, *The Technology of Salvation and the Art of Geertgen tot Sint Jans* John R. Decker, 2017-07-05 Investigating the complex interactions between devotional imagery and Church doctrine in the Low Countries during the fifteenth century this book demonstrates how the pictorial arts intersected with popular religious practice The author reconstructs the conceptual frameworks underlying the use and production of religious art in this period and provides a more nuanced understanding of the use of images in the process of soul formation This study delves into the complexity of the early modern system of personal justification and argues that religious images and objects were part of a larger Technology of Salvation In order to make these connections clearer the author analyzes selected works by Geertgen tot Sint Jans Little Gerard at St John s and shows how they functioned within their larger social and historical milieu

royaux des beaux-arts de Belgique, Anne Dubois, 1996 The fifth volume examines all the works painted by anonymous masters Most works of the 15th and early 16th centuries are not signed Several of these works have not proved possible to attribute to a known painter or to a master with a provisional name These works labelled as anonymous have been little studied until now because they are in general thought to be of lesser quality and because researchers have prioritised the study of more important masters It is however becoming increasingly apparent that these reflect the ongoing production of the time in the Southern Netherlands Beside the fact that these paintings represent the themes that enjoyed a certain popularity at the time their study opens perspectives onto the socio economic context and workshop practice These paintings could be destined for a broad market and betray different working methods allowing for swift execution in several copies Furthermore two of these anonymous works dating from around 1400 or a little bit later rank amongst the rare representatives of pictorial production in the Southern Netherlands prior to the technical innovations introduced by the Flemish Primitives This production is by convention called pre Eyckian painting **Leven te Leuven in de late middeleeuwen** Lutgarde Bessemans, 1998
