

Unenclosed & Hoistway Platform Lifts

BC/HBC, WOV 355 & PL-5

Unenclosed platform lifts (UPL's) are the most popular alternative for wheelchair ramps, which not only meet ADA laws of space but also result in easily maintainable systems.

Whether ground-mounting hoistways for outdoors or heights up to 5' high, our UPL's are proven performers. Our team of experienced design engineers, sales and service staff in the industry dedicated to bringing you products that meet your growing accessibility needs.

The BC and HBC models are manufactured using aluminum. This unit has the industry's most 20" of height clearance with a vertical travel distance (due to efficient, compact applications) include churches, schools, restaurants and schools. The BC unit is easily maintainable.

The WOV 355 is a vertical platform lift with a hydraulic drive and 5'10" vertical platform height. A safety lift is provided by the 2" speed operation. The closed platform requires considerable clearance for the lift to raise or lower. Please contact this unit requires a separate mounting base.

The PL-5 model can be easily customized to meet with surrounding interior and exterior, making it the most popular lift. This lift is installed in a hoistway that includes a hoistway or completely enclosed hoistway by either. Both the hoistway and platform are made of aluminum with a choice of standard clear and glass options, available from ThyssenKrupp Access.
