what the Chinese Communist Party's choices mean for the rest of the world New Statesman Books of the Year Choice
 Outstanding Academic Title 2023 _____ From the Samuel Johnson Prize winning author of Mao's Great Famine a
 timely and compelling account of China in the wake of Chairman Mao In China After Mao award winning historian Frank Dik
 tter explores how the People's Republic of China was transformed from a backwater economy in the 1970s into the world
 superpower of today His account is the first to be based on hundreds of previously unseen archival documents from the
 secret minutes of top party meetings to confidential bank reports Unfolding with great narrative sweep this riveting richly
 detailed chronicle recasts our understanding of an era that both the regime and foreign admirers celebrate as an economic
 miracle In charting four decades of so called Reform and Opening Up and China's emergence as a world power Dik tter tells
 a fascinating tale of contradictions and illusions of shadow banking anti corruption drives and extreme state wealth standing
 alongside everyday poverty He examines China's approach to the 2008 financial crash the country's increasing hostility
 towards perceived Western interference and its development into a thoroughly entrenched dictatorship one equipped with a
 sprawling security apparatus and the most sophisticated surveillance system in the world Ultimately the book concludes the
 communist party's goal was never to join the democratic sphere but to resist it and then defeat it Praise for Frank Dik tter
 and the People's Trilogy Harrowing and brilliant Ben Macintyre The historian of China Spectator One of the few books that
 anyone who wants to understand the twentieth century simply must read New Statesman The seminal English language work
 on the subject Sunday Times Gripping and masterful Simon Sebag Montefiore **The Tenants of East Harlem** Russell
 Leigh Sharman, 2006 Publisher Description **China's Reforms and Reformers** Alfred K. Ho, 2004-04-30 Ever since the
 death of Mao China has undergone a transformation almost as radical as the Communist Revolution that Mao instigated This
 book tells the stories of the many difficult economic political and social struggles that have taken place in post Maoist China
 Using both Chinese and non Chinese sources Alfred K Ho unravels the complexities of life in China during the past
 generation As Ho explains contemporary Chinese are seeking to find solutions to their problems that reflect their own
 cultural values As such reform in China cannot be seen solely as an effort to emulate the West especially the free market and
 democratic United States Rather Ho places current efforts at reform as part of a prolonged and continual process by Chinese
 to deal with their internal problems as well as the challenges and opportunities they face as a result of greater contact with
 the outside world **China's Party Congress** Guoguang Wu, 2015-09-18 The first analysis of the National Congress of the
 Chinese Communist Party more commonly known as the Party Congress Drawing from new documentary evidence Guoguang
 Wu examines the operation of the highest decision making body in China's single ruling party developing a theory of
 authoritarian legitimization that integrates informal politics with institutions *The Rise and Decline and Rise of China*
 MISTRA MISTRA, 2015-05-10 The Rise and Decline and Rise of China Searching for an Organising Philosophy represents a
 new and promising approach to Africa China relations What is most impressive is that it is an encounter between African and

Chinese thought but this encounter is not just a set of stale comparisons of philosophical beliefs This study places the concepts and attitudes in both China and Africa in their socio political contexts in an attempt to provide a sophisticated sensitive and usable history This attempt yields dividends especially for the primary audience of Africans as it gives a way of learning from the vast history of Chinese experience without reducing African experience to insignificance or irrelevance as has happened so often in dialogues between Africa and the West This book will be of interest to anyone from within Africa interested in engaging with China as a complex and nuanced place a place of challenge creativity and opportunity

Rise and Decline and Rise of China Ross Anthony, Kevin Bloom, Daouda Cissé, Martyn Davies, Maxime Lauzon-Lacroix, Garth le Pere, Thaddeus Metz, Richard Poplak, Gauhar Raza, Yongjun Zhao, Mapungubwe Institute for Strategic Reflection (MISTRA), 2015-09-14 Running like a red thread through this book are the manifestations of Sino African relations dating back many centuries In this way The Rise and Decline and Rise of China Searching for an Organising Philosophy takes forward the work MISTRA conducted on the Mapungubwe society one of the advanced states that existed in southern Africa some 800 years ago What makes this research report unique though is that the treatment of these issues has been undertaken primarily from an African perspective

Authority and Welfare in China M. Twohey, 1998-12-07 This book describes the relationship between political authoritarianism and people's welfare in modern China Based on a study of Chinese political discourse from the 1898 reform period to the present the book demonstrates that support for authoritarian rule in modern China is best understood when compared to ancient political traditions of authority and welfare that were established in China's late Zhou dynasty by the Confucian philosopher Xunzi 298-238 BC

China's Leaders Cheng Li, 2001 Who will govern China after Jiang Zemin What path will its new leaders chart in the early years of the twenty first century Drawing upon a wealth of both quantitative and qualitative data on the so called fourth generation of leaders_ those who were young during the Cultural Revolution_ Cheng Li shows that this group is more diversified than previous generations in formative experiences political solidarity ideological conviction and occupational background The author explores the contradictions between these emerging leaders and their non elite peers who were barred from education during the Mao era and now often are unemployed and disenchanted The book concludes with the intriguing notion that this generation of leaders may have a better understanding of its peers' concerns and therefore may make the regime more accountable to its people thus contributing to rather than opposing democratic development

Politics in China Since 1949 Robert Weatherley, 2007-01-24 Since the victory of the 1949 revolution the incumbency of the Chinese Communist Party has been characterized by an almost relentless struggle to legitimize its monopoly on political power During the Mao era attempts to derive legitimacy focused primarily on mass participation in political affairs a blend of Marxist and nationalist ideology and the charismatic authority of Mao Zedong The dramatic failure of the Cultural Revolution forced the post Mao leadership to discard these discredited paradigms of legitimacy and move towards an almost exclusively performance based concept

founded on market economic reform The reforms during the 1980s generated a number of unwelcome but inevitable side effects such as official corruption high unemployment and significant socio economic inequality These factors culminated ultimately in the 1989 demonstrations in Tiananmen Square and throughout China Since Tiananmen the party has sought to diversify the basis of its legitimacy by adhering more closely to constitutional procedures in decision making and to a certain extent by reinventing itself as a conservative nationalist party This probing study of post communist revolution Chinese politics sets out to discover if there is a plausible alternative to the electoral mode or if legitimacy is the exclusive domain of the multi party system Campus Legends Elizabeth Tucker,2005-10-30 Since the earliest days of universities students
