Ties That Bind Consider 3:

The Tie that Binds Andrea Y. Simpson, 1998-08 What does it mean to be black in a nation increasingly infatuated with colorblindness In The Tie That Binds Andrea Y Simpson seeks to answer this crucial question through the prism of ethnic and political identification Historically African Americans have voted overwhelmingly Democratic in governmental elections In recent years however politically conservative blacks from Clarence Thomas to Louis Farrakhan to Ward Connerly have attracted much of the media's gaze What is the nature of black conservatives constituency and is it as strong and numerous as conservatives would have us believe To what extent if at all does black conservatism stem from a weakened sense of collective racial identity Simpson tackles the peculiar institution of black conservatism by interviewing college students to determine their political attitudes and the ways in which these are shaped The result is a penetrating interrogation of the relations between political affiliation racial identity and class situation

The Space between Look and Read Susan M. Hagan, 2023-04-18 Unleashing the potential that can be found in the space between words and images Designers have long understood that image text and typeface can work together to produce new meanings creating semiotic registers impossible to achieve with image or text alone In *The Space Between Look and Read* a study of complementary meaning in design Susan Hagan presents a framework called Inter play which explains how these new meanings emerge Inter play is not simply an analytical tool it is also a method for using complementary meaning to encourage critical thinking in design audiences Drawing from cognitive psychology art theory discourse analysis design and rhetoric Hagan breaks down the synthesis of looking and reading into a complex series of registers which are revealed through examples of excellent design Thus the book is both a theoretical exploration of how designers communicate and a casebook in communication well achieved From the physiology of vision to the limits of language from Allan Paivio to Uwe Loesch *The Space Between Look*

and Read expands our understanding of complementary design and argues that by engaging audiences through multiple cognitive registers complementary design serves as a cognitive tool helping audiences reach new conclusions about complex problems

Mishnah and the Social Formation of the Early Rabbinic Guild Jack N. Lightstone, 2006-01-01 Where do the origins of the rabbinic movement lie and how might evidence from the early rabbinic literature be made to reveal those origins In order to shed light on the early social formation of the rabbinic guild of masters Lightstone brings the theoretical and methodological insights of socio rhetorical analysis to examine Mishnah the first document authored by the early rabbinic movement and its principal object

of study for several centuries He argues that the enshrinement of Mishnah served to model via its pervasive rhetoric the principal authoritative guild expertise that qualified and marked one as a member of the rabbinic guild Furthermore he establishes the social and historical venue in late second and early third century Galilee The author concludes that the social formation of the early rabbinic guild coalesced around the institution of the Jewish Patriarchy for which the early rabbis served as bureaucratic scribal retainers He further suggests that the development of both the Patriarchy in the Land of Israel and the social formation of the rabbinic guild may have been spurred by the imposition of Roman style urbanization in the region over the course of the latter half of the second and beginning of the third century Lightstone s approach is informed by the insights and methods of several cognate disciplines encompassing literary analysis sociology and anthropology and history including in the last chapter the history of material culture The book will be of interest to advanced students in the history of Judaism rabbinic literature biblical studies early Christianity and the history of religion and culture in the late Roman Near East Official Reports of the Debates of the House of Commons of the Dominion of Canada Canada.
