and conceptual clarity *Against the Spiritual Turn* Sean Creaven, 2014-04-08 The argument presented in this book is that the recent spiritual trajectory of Roy Bhaskar's work upon which he first embarked with the publication of his *From East to West* undermines the fundamental achievements of his earlier work The problem with Bhaskar's new philosophical system Transcendental Dialectical Critical Realism or simply Meta Reality from the critical realist Marxist perspective endorsed here is that it marks both a departure from and a negation of the earlier concerns of Bhaskar to develop a realist philosophy of science and under labour for an emancipatory materialist socio historical science The end result is a meta philosophy which is irrealist speculative under theorized internally self contradictory and which cannot provide philosophical guidance to liberatory social practices In opposition to theist ontological logics more generally including the rather more rational theism presented by Margaret Archer Andrew Collier and Doug Porpora the argument of this book is that the earth bound materialist dialectics of the classical Marxist tradition and the naturalistic humanism these dialectics under labour on the terrain of socio historical being offer a much more promising way forward for critical realist theory and for liberatory politics and ethics *Phänomenologische Forschungen 2023-1* Inga Römer, Thimo Breyer, Michela Summa, 2023-09-27 Die von Thimo Breyer Inga Römer und Michela Summa herausgegebenen Phänomenologischen Forschungen sind ein internationales offenes Forum für die Publikation aller im weitesten Sinne phänomenologisch orientierten Arbeiten Aufgenommen werden Beiträge in deutscher englischer und französischer Sprache die Begutachtung erfolgt nach dem Verfahren des Peer Review

Carter, 2021-06-08 The Western Humanism originating in classical Greek philosophy where the capacity of human reason became the dominant means for perceiving a worldview

based in reality reigned in Western philosophy until the onset of Postmodern Existentialism in the mid twentieth century Plato's Theory of Forms prepared the Western gentile mind to accept the rationality of a transcendent ultimate reality and in so doing steered the gentile mind from its bent to pantheistic deities The apostle Paul boldly proclaimed to the Athenians that their unknown god was indeed the transcendent God of Abraham Isaac and Jacob Christianity prevailed in Western philosophy until the Enlightenment which was the result of the unprecedented success of the scientific method began to turn the Western mind to the existentialistic idea of the relativity of moral truth

Immanent Transcendence Patrice Haynes, 2012-08-23 Over the last twenty years materialist thinkers in the continental tradition have increasingly emphasized the category of immanence Yet the turn to immanence has not meant the wholesale rejection of the concept of transcendence but rather its reconfiguration in immanent or materialist terms an immanent transcendence Through an engagement with the work of Deleuze Irigaray and Adorno Patrice Haynes examines how the notion of immanent transcendence can help articulate a non reductive materialism by which to rethink politics ethics and theology in exciting new ways However she argues that contrary to what some might expect immanent accounts of matter and transcendence are ultimately unable to do justice to material finitude Indeed Haynes concludes by suggesting that a theistic understanding of divine transcendence offers ways to affirm fully material immanence thus pointing towards the idea of a theological materialism

The Infinity of God Benedikt Paul Göcke, Christian Tapp, 2018-12-30 Two questions regarding contemporary theological and philosophical studies are often overlooked Is God infinite or finite and What does it mean to say that God is infinite In The Infinity of God Benedikt Paul Göcke and Christian Tapp bring together prominent scholars to discuss God's infinitude from philosophical and theological perspectives Each contributor deals with a particular aspect of the infinity of God employing the methods of analytic theology and analytic philosophy The essays in the first section examine historical issues from a systematic point of view The

contributors focus on the Cappadocian Fathers Thomas Aquinas Leibniz Kant Hegel Bolzano and Cantor The second section deals with particular issues concerning the relation between God's infinity and both the finitude of the world and the classical attributes of God eternity simplicity omnipresence omnipotence omniscience and moral perfection There are some books that deal with the notion of infinity in mathematics and in general philosophy but no single text brings together the best analytic philosophers and theologians tackling the various aspects of the infinity of God and the correlated problems This book will interest students and scholars in philosophy of religion theology and metaphysics Contributors Benedikt Paul Gcke Christian Tapp Franz Krainer Adam Drosdek William E Carroll Christina Schneider Ruben Schneider Robert M Wallace Bruce A Hedman Bernhard Lang Richard Swinburne Kenneth L Pearce William Hasker Paul Helm Brian Leftow Ken Perszyk Thomas Sch rtl and Philip Clayton

Foucault, Christianity and Interfaith Dialogue Henrique Pinto, 2020-11-25

Foucault Christianity and Interfaith Dialogue develops a new model for interfaith dialogue using the work of the French historian of ideas Michel Foucault The author argues that it is the injustice done to the Other by Roman Catholic Protestant and other centred and unitary models of religious pluralism that allows the introduction of Foucault's de-centring of transcendence and human reason as an alternative model for understanding religious diversity and the role it ought to play in the constitution of the self and the making of society This Foucaultian approach provides a new direction for interfaith dialogue in the modern world and leads to an ethical rather than a nihilistic position while fostering a non-unitary theology of religious pluralism and an open textured process of self transformation The author's original and imaginative application and expansion of Foucault's concept of the More from *The Archaeology of Knowledge* 1969 makes important and original contributions to academic work on Foucault and contemporary theology
