Critical Social Issues in American Education H. Svi Shapiro, David E. globalization and education Each section is preceded by a brief essay that introduces the readings This Third Edition includes many new readings and addresses issues that have more recently emerged as especially significant such as concerns about the implications of globalization and the post 9 11 world commercialism violence and the ever increasing influence of high stakes testing This compelling text is relevant for a wide range of courses in educational foundations educational policy curriculum studies and multicultural education that address the social context of education cultural and political change and public policy
