Early Literacy Research, Volume 1 Susan B. Neuman, David K. Dickinson, 2017-05-08 Current research increasingly highlights the role of early literacy in young children's development and facilitates the growth of practices and policies that promote success among diverse learners. The Handbook of Early Literacy Research presents cutting edge knowledge on all aspects of literacy learning in the preschool years. Volume 1 covers such essential topics as major theories of early literacy, writing development, understanding learning disabilities, including early intervention approaches, cultural and socioeconomic contexts of literacy development, and tutoring programs and other special intervention efforts. The Reading Lives of Teens Chin Ee Loh, 2024-11-04 In these changing times of global flows of media and technologies and reports of declining reading enjoyment, researchers, policymakers, and educators need to engage anew with essential issues of what counts as reading, what kinds of reading matter, and how to support teen reading engagement in school and out of school settings. Bringing together contributions from well-known and emerging adolescent literacy researchers from different disciplinary perspectives, this edited collection consolidates contemporary research on teens' volitional print and digital reading, whether in school or out of school contexts. The first part of the book offers overviews of what teens are reading, followed by chapters on community support on reading and new ways of researching teen reading. With chapters from North America, Europe, Australia, Asia, and the Middle East, the collection will offer multifaceted and complex insights into what, how, and why teens read in different contexts. Reflection questions at the end of each chapter encourage readers to consider how the research can be applied in their own research policy and practice contexts. This book will be of interest to researchers, policymakers, and educators who are invested in supporting adolescent engaged reading with evidence-based policies and strategies.

Peter Grill and the Philosopher's Time Vol. 11 Daisuke Hiyama, 2023-12-12 Peter's life is thrown upside down when Piglette is attacked by an orcish assassin. Her nefarious plan thwarted, the voluptuous orc femme fatale reveals that she's been sent from the future to prevent Piglette from destroying Orcland. Peter has sidestepped many a terrible enemy but can he evade fate? **Alternatives to Privatizing Public Education and Curriculum** Daniel Ness, Stephen J.

Farenga, 2017-03-16 Through conversations in honor of Dale D. Johnson, this book takes a critical view of the monoculture in curriculum and policy that has developed in education with the increase of federal funding and privatization of services for public education and examines the shift from public interest and control to private and corporate shareholder hegemony. Most states' educational responsibilities, assessment of constituents, curriculum development, and instructional protocols are increasingly being outsourced to private enterprises in an effort to reduce state budgets. These enterprises have been given wide access to state resources such as public data from state-sanctioned testing results, field testing rights to public schools, and financial assistance. Chapter authors challenge this paradigm as well as the model that has set growing premiums on accountability and performance measures. Connecting common impact between the standards movement and the privatization of education, this book lays bare the repercussions of high-stakes accountability coupled with increasing

privatization Winner of The Society of Professors of Education Book Award 2018 **Research Methods in Human Resource Management** Valerie Anderson, 2004 Addresses the needs of HRM students writing either a management report or dissertation providing both a theoretical framework and practical guidance This guide to the planning and execution of HRM research projects seeks to develop the knowledge and skills of first time researchers for effective research into HRM issues in organisations Handbook of Reading Research, Volume II Rebecca Barr, Michael L.
