Deceits of the Mind and Their Effects on the Body Jane Gretzner Goldberg, 1991-01-01 *Deceits of the Mind* is a major effort at developing a comprehensive theory of disease one incorporating knowledge of how the mind works how the body works and how the two interface This interface traditionally called psychosomatic medicine newly labeled psychoneuro immunology has piqued the interest of a great many researchers and lay people alike in the last decade Most recently it has shown great promise in the psychological treatment of physical disorders Although books on the mind body dynamic usually end with the basic principle of mind affecting the body this is the point at which Jane Goldberg s *Deceits of the Mind* begins Goldberg begins by challenging the traditional medical model of the disease process Since the advent of modern medicine sickness has been seen as caused by factors from without environmental stressors germs carcinogens and so on In contrast Goldberg s research and observations indicate that diseases both biological and psychological are often rooted in processes that have their origins within the human organism itself She shows that an organism s ability to defend itself is crucial to the maintenance of both physical and emotional well being She describes the variety of psychological and biological methods of defense the human organism has available to it and how these go awry in the formation of disease Moving beyond the traditional psychosomatic postulate of mind affecting body Goldberg goes a step farther and proposes the adventuresome notion that mind and body imitate each other A malfunction at any level of mind or body she says is reflected in all other levels She shows how in disease conditions psychosis can exist in the body not just the mind and how the cancer process is embedded in the mind not just the body

How and When to Be Your Own Doctor Lisa Bright, 2021-02-04 Do you know why you get sick Would you know how to take care of a simple acne breakout on your face This e book covers in a simple and didactic way the whole process of getting sick and taking care of yourself before you need to see a real doctor The great maxim We are what we eat is still valid Therefore you must learn how to feed yourself fast and feed yourself and learn about the foods that can heal you and make you sick Here you will learn among other things about Extending Life with the right foods Diet for a long life Diet for a healthy person Diet for acute disease Food to cure chronic diseases Diet for chronic disease Foods in the order of digestive difficulty Diets for healing people in critical condition Combination foods and Healthy Junk food And much more When my health began to slip I went looking for a cure Up to that time the only use I d had for doctors was to fix a few traumatic injuries The only preventative health care I concerned myself with was to take a

multivitamin pill during those rare spells when I felt a bit run down and to eat lots of vegetables So I did not learn much about alternative health care Naturally my first stop was a local general practitioner MD He gave me his usual half hour get acquainted checkout and opined that there almost certainly was nothing wrong with me I suspect I had the good fortune to encounter an honest doctor because he also said if it were my wish he could send me around for numerous tests but most likely these would not reveal anything either More than likely all that was wrong was that I was approaching 40 with the onset of middle age I would naturally have more aches and pains Take some aspirin and get used to it was his advice It ll only get worse Not satisfied with his dismal prognosis I asked an energetic old guy I knew named Paul an 80 something homesteader who was renowned for his organic garden and his good health Paul referred me to his doctor Isabelle Moser who at that time was running the Great Oaks School of Health a residential and out patient spa nearby at Creswell Oregon Dr Moser had very different methods of analysis than the medicos was warmly personal and seemed very safe to talk to She looked me over did some strange magical thing she called muscle testing and concluded that I still had a very strong constitution If I would eliminate certain bad foods from my diet eliminate some generally healthful foods that unfortunately I was allergic to if I would reduce my alcohol intake greatly and take some food supplements then gradually my symptoms would abate With the persistent application of a little self discipline over several months maybe six months I could feel really well again almost all the time and would probably continue that way for many years to come This was good news though the need to apply personal responsibility toward the solution of my problem seemed a little sobering But I could also see that Dr Moser was obviously not telling me something So I gently pressed her for the rest A little shyly reluctantly as though she were used to being rebuffed for making such suggestions Isabelle asked me if I had ever heard of fasting Yes I said I had Once when I was about twenty and staying at a farm in Missouri during a bad flu I actually did fast mainly because I was too sick to take anything but water for nearly one week Why do you ask I demanded If you would fast you will start feeling really good as soon as the fast is over she said Fast How long Some have fasted for a month or even longer she said Then she observed my crestfallen expression and added Even a couple of weeks would make an enormous difference It just so happened that I was in between set up stages for a new mail order business I was starting and right then I did have a couple of weeks when I was virtually free of responsibility I could also face the idea of not eating for a couple of weeks Okay I said somewhat impulsively I could fast for two weeks If I start right now maybe even three weeks depending on how my schedule works out So in short order I was given several small books about fasting to read at home and was mentally preparing myself for several weeks of severe privation my only sustenance to be water and herb tea without sweetener And then came the clinker Have you ever heard of colonics she asked sweetly Yes Weird practice akin to anal sex or something Not at all she responded Colonics are essential during fasting or you will have spells when you ll feel terrible Only colonics make water fasting comfortable and safe Then followed some explanation about bowel cleansing and another little book to take home and

soon I was agreeing to get my body over to her place for a colonic every two or three days during the fasting period the first colonic scheduled for the next afternoon I'll spare you
