Turning Conflict Into Profit A Roadmap For Resolving Personal And Organizational Disputes:

Turning Conflict Into Profit Larry Axelrod, Rowland (Roy) Johnson, 2014-09-27 Conflict in the workplace becomes expensive when an organization's efficiency is damaged by friction between employees. Conflicts can threaten the profitability and innovation of business, the sustainability of public institutions, and the health and achievement of individuals. Faced with conflict, most people either lean away, avoiding the issue, or charge right in, escalating the problem. Neither strategy is ultimately successful, and the social and financial costs can be devastating. Drawing on principles of psychology and sociology, Larry Axelrod and Roy Johnson have developed a new alternative for workplace conflict resolution. *Turning Conflict Into Profit* explains how leaning into conflict not only defuses workplace tensions but releases blocked energy into positive channels of development. Written in plain language with real-life examples, *Turning Conflict Into Profit* offers a practical and rewarding roadmap through conflict. *The Routledge Companion to Wellbeing at Work* Cary Cooper, Michael Leiter, 2017-05-18 Over recent years, many companies have developed an awareness of the importance of an active rather than passive approach to wellbeing at work. Whilst the value of this approach is widely accepted, turning theory into effective practice is still a challenge for many companies. *The Routledge Companion to Wellbeing at Work* is a comprehensive reference volume addressing every aspect of the topic. Split into five parts, it explores different models of wellbeing, personal qualities contributing to wellbeing, job insecurity, and organizational wellbeing, workplace supports for wellbeing, and initiatives to enhance wellbeing. The international team of contributors provide a solid foundation to research and practice, including contemporary topics such as architecture, coaching, and fitness in the workplace. Edited by two of the world's leading scholars on the subject, this text is a valuable tool for researchers, students, and practitioners in HRM and organizational psychology. **Managing Human Behavior in Public and Nonprofit Organizations** Robert B. Denhardt, Janet Vinzant Denhardt, Maria Pilar Aristigueta, 2008 Written for undergraduate and postgraduate programs in public administration, particularly in Masters in Public Administration (MPA) programs, this text is designed to help students develop the skills and understanding they need in order to become effective and responsible public managers. It covers all of the essential topics in management and organizational behaviour from the perspective of public and non-profit management. The text focuses on the importance of understanding the behaviour, motivations, and actions of individuals in the public service and the distinctiveness of management and leadership in public organizations. Action-oriented, the book is filled with cases, self-assessment exercises, simulations, and evaluative instruments. **Witch Daze** Patricia Della-Piana, 2010 **Quill & Quire**, 2005 **Choice**, 2006-03 **Resolving Personal and Organizational Conflict** Ken Cloke, Joan Goldsmith, 2000-09 *Resolving Personal and Organizational Conflicts and Disputes* offers specific methods for assisting disputing parties to communicate their problems without sinking into the twin traps of demonization and victimization. In addition, the authors show how to encourage people and organizations in conflict to identify new ways of sustaining

supportive relationships and transforming anger into awareness dialogue and reconciliation

Ten Steps for Turning Negatives into Positives** Harold Scharlatt, 2016-05-19 Conflict is inevitable in everyday life and especially in today's increasingly nonhierarchical organizations in the workplace. So what has always been a key leadership skill, conflict resolution, has become even more critical. But too often leaders receive little formal training in conflict resolution and they struggle just to manage the simplest interpersonal conflicts.
