theory this book looks at some of the social inequities produced under neoliberal capitalism and the ways these problems are internalized into subjectivity as the neoliberal self. Neoliberal cultural values are shown to reframe social inequities as personal problems and simultaneously create a sense of personal responsibility for solving them within the self rather than addressing them externally. The author argues that current crises in meaning making and mental health have been exacerbated by the neoliberal values of individualization, responsabilization, self governance and competition. Divided into 3 parts, this book begins by outlining the emergence of subjectivity and technologies of the self. It demonstrates how the sociopolitical conditions that amplify social inequities intertwine with the hyperawareness of the internet age to create an atmosphere of meaninglessness that is pervasive on social media and in internet culture. In part 2, the author further analyses this phenomenon, here labelled as 'neonihilism', as the process in which we confront meaninglessness through irony, questioning whether this might hold the intrinsic condition for overcoming this new nihilism. Part 3 examines the possibility for collective meaning making, solidarity and collective action afforded by creating an art of nihilating the neoliberal self or what the author terms the 'ars nihil' via subversion and resistance. This book offers fresh insights that will be of interest to students and scholars of critical theory, psychology, philosophy and sociology. **Listening to Bob Dylan** Larry Starr, 2021-09-14

Venerated for his lyrics, Bob Dylan in fact is a songwriting musician with a unique mastery of merging his words with music and performance. Larry Starr cuts through pretention and myth to provide a refreshingly holistic appreciation of Dylan's music. Ranging from celebrated classics to less familiar compositions, Starr invites readers to reinvigorate their listening experiences by sharing his own, sometimes approaching a song from a fresh perspective, sometimes reeling in surprise at discoveries found in well known favorites. Starr breaks down often overlooked aspects of the works from Dylan's many vocal styles to his evocative harmonica playing to his choices as a composer. The result is a guide that allows listeners to follow their own passionate love of music into hearing these songs and personal favorites in new ways. Reader friendly and revealing, *Listening to Bob Dylan* encourages hardcore fans and Dylan curious seekers alike to rediscover the music legend.

Philosophical Horizons Yang Guorong, 2019-01-28 Professor Yang Guorong is one of the foremost living philosophers in China and is widely known for the development of his concrete metaphysics. In *Philosophical Horizons*, Yang offers penetrating discussions of some of the most important issues in modern philosophy, especially those topics related to comparative and Chinese philosophy. Drawing freely and adroitly on Confucian, Daoist and Buddhist texts while staging a dialogue with Western thinkers such as Kant and Hegel to Marx, Heidegger and Wittgenstein, Yang shows how contemporary Chinese philosophy has adopted, localized and critically developed Western ideas alongside traditional Chinese concepts. **Novel Arguments** Richard Walsh, 1995-09-29 *Novel Arguments* argues that innovative fiction, by which is meant writing that has been variously labeled postmodern, metafictional, experimental, extends our ways of thinking about the world and rejects the critical consensus that under the rubrics of postmodernism and metafiction homogenizes this fiction as

autonomous and self absorbed Play self consciousness and immanence supposed symptoms of innovative fiction s autonomy are here reconsidered as integral to its means of engagement The book advances a concept of the argument of fiction as a construct wedding structure and content into a highly evolved and expressive experimental form Close readings of five important innovative novels by Donald Barthelme Ishmael Reed Robert Coover Walter Abish and Kathy Acker show how they articulate matters of substance social engagement and ideological currency by virtue of the act of innovation Walsh deftly argues for a new understanding of fictional cognition at the theoretical level and in an act of great critical creativity discards altogether the flattening totalities of received postmodern formulations 2001 Frederick Sontag,2001-09-12 Can we 21st century pioneers match the challenge that our wanderings in a vast spiritual desert will bring us to encounter still never giving up our hope and yet continually find our courage renewed Can we rediscover trust in our now more divided lands as some have managed to do in their past trials and tribulations In 2001 A Spiritual Odyssey Frederick Sontag argues that we cannot understand the causes and the directions of our 21st century spiritual odyssey without seeing the forces which attract and drive the human spirit Our goal To see what new born novelties may be moving us to our 2001 spiritual odyssey and what attractions and distractions may be as old to us as our evolution s history
