Have you ever had something stuck in your head? After a session in the VR Booth at the Mega Pizzaplex, Kai can't shake the feeling that the tiger animatronic somehow has stayed with him. A new attraction at the Mega Pizzaplex leaves Kane's mind full of intrusive thoughts not his own. And Danny's idea to get the attention of his high school crush comes with unimaginable consequences. In the world of Five Nights at Freddy's, truth is often scarier than fiction. In this seventh volume, Five Nights at Freddy's creator Scott Cawthon spins three sinister novella-length tales from uncharted corners of his series canon. Readers beware! This collection of terrifying tales is enough to rattle even the most hardened Five Nights at Freddy's fans.

Manual Instruction: Woodwork S. Barter, 1905 **Manual training and vocational education**, 1900 Reinventing the Propeller Jeremy R. Kinney, 2017-03-24 An international community of specialists reinvented the propeller during the Aeronautical Revolution, a vibrant period of innovation in North America and Europe from World War I to the end of World War II. They experienced both success and failure as they created competing designs that enabled increasingly sophisticated and modern commercial and military aircraft to climb quicker and cruise faster using less power. Reinventing the Propeller nimbly moves from the minds of these inventors to their drawing boards, workshops, research and development facilities, and factories, and then shows us how their work performed in the air, both commercially and militarily. Reinventing the Propeller documents this story of a forgotten technology to reveal new perspectives on engineering, research and development, design, and the multi-layered social, cultural, financial, commercial, industrial, and military infrastructure of aviation.
