A History of Women's Boxing Malissa Smith,2014-06-05 Records of modern female boxing date back to the early eighteenth century in London and in the 1904 Olympics an exhibition bout between women was held Yet it was not until the 2012 Olympics more than 100 years later that women s boxing was officially added to the Games Throughout boxing s history women have fought in and out of the ring to gain respect in a sport traditionally considered for men alone The stories of these women are told for the first time in this comprehensive work dedicated to women s boxing A History of Women s Boxing traces the sport back to the 1700s through the 2012 Olympic Games and up to the present Inside the ring action is brought to life through photographs newspaper clippings and anecdotes as are the stories of the women who played important roles outside the ring from spectators and judges to managers and trainers This book includes extensive profiles of the sport s pioneers including Barbara Buttrick whose plucky carnival shows launched her professional boxing career in the 1950s sixteen year old Dallas Malloy who single handedly overturned the strictures against female amateur boxing in 1993 the famous boxing daughters Laila Ali and Jacqui Frazier Lyde and teenager Claressa Shields the first American woman to win a boxing gold medal at the Olympics Rich in detail and exhaustively researched this book illuminates the struggles obstacles and successes of the women who fought and continue to fight for respect in their sport A History of Women s Boxing is a must read for boxing fans sports historians and for those interested in the history of women in sports

The Body in the Anglosphere, 1880-1920 Robert W. Thurston, 2021-12-30 Focusing on the body in every chapter this book examines the changing meanings and profound significance of the physical form among the Anglo Saxons from 1880 to 1920 They formed an imaginary but in many ways quite real community that ruled much of the world Among them racism became more virulent To probe the importance of the body this book brings together for the first time the many areas in which the physical form was newly or more extensively featured from photography through literature frontier wars violent sports and the global circus Sex sexuality concepts of gender including women's possibilities in all areas of life and the meanings of race and of civilization figured regularly in Anglo discussions Black people challenged racism by presenting their own photos of respectable folk As all this unfolded Anglo men and women faced the problem of maintaining civilized control vs the need to express uninhibited feeling With these issues in mind it is evident that the origins of today's debates about race and gender lie in the late nineteenth century

Muscle on Wheels M. Ann Hall, 2018-08-21 The majestic high wheel bicycle with its spider wheels and rubber tires emerged in the mid 1870s as the standard bicycle A common misconception is that bound by Victorian dress and decorum women were unable to ride it only taking up cycling in the 1880s with the advent of the chain driven safety bicycle On the contrary women had been riding and even racing some form of the bicycle since the first velocipede appeared in Europe early in the nineteenth century Challenging the understanding that bicycling was a purely masculine sport *Muscle on Wheels* tells the story of women's high wheel racing in North America in the 1880s and early 1890s with a focus on a particular cyclist Louise Armaindo 1857-1900 Among Canada's first women professional athletes and the first woman who was truly successful as a high wheel racer Armaindo began her career as a strongwoman and trapeze artist in Chicago in the 1870s before discovering high wheel bicycle racing Initially she

competed against men but as more women took up the sport she raced them too Although Armaindo is the star of *Muscle on Wheels* the book is also about other women cyclists and the many men racers managers trainers agents bookmakers sport administrators and editors of influential cycling magazines who controlled the sport especially in the United States The story of working class Victorian women who earned a living through their athletic talent *Muscle on Wheels* showcases an exciting moment in women s and athletic history that is often forgotten or misconstrued *Fit Nation* Natalia Mehlman Petrzela,2024-04-05 How is it that Americans are more obsessed with exercise than ever and yet also unhealthier *Fit Nation* explains how we got here and imagines how we might create a more inclusive stronger future If a shared American creed still exists it s a belief that exercise is integral to a life well lived A century ago working out was the activity of a strange subculture but today it s almost impossible to avoid exhortations to exercise Walk 5K to cure cancer Awaken your inner sex kitten at pole dancing class Sweat like or even with a celebrity in spin class Exercise is everywhere Yet the United States is hardly a fit nation Only 20 percent of Americans work out consistently over half of gym members don t even use the facilities they pay for and fewer than 30 percent of high school students get an hour of exercise a day So how did fitness become both inescapable and inaccessible Spanning more than a century of American history *Fit Nation* answers these questions and more through original interviews archival research and a rich cultural narrative As a leading political and intellectual historian and a certified fitness instructor Natalia Mehlman Petrzela is uniquely qualified to confront the complex and far reaching implications of how our contemporary exercise culture took shape She explores the work of working out not just as consumers have experienced it but as it was created by performers physical educators trainers instructors and many others For Petrzela fitness is a social justice issue She argues that the fight for a more equitable exercise culture will be won only by revolutionizing fitness culture at its core making it truly inclusive for all bodies in a way it has never been Examining venues from the stage of the World s Fair and Muscle Beach to fat farms feminist health clinics radical and evangelical college campuses yoga retreats gleaming health clubs school gymnasiums and many more *Fit Nation* is a revealing history that shows fitness to be not just a matter of physical health but of what it means to be an American *Nomadland* Jessica Bruder,2017-09-19 The inspiration for Chlo Zhao s celebrated film starring Frances McDormand winner of the Academy Awards for Best Picture Best Director and Best Actress A Selection of the PBS Newshour New York Times Now Read This Book Club New York Times bestseller People who thought the 2008 financial collapse was over a long time ago need to meet the people Jessica Bruder got to know in this scorching beautifully written vivid disturbing and occasionally wryly funny book Rebecca Solnit From the beet fields of North Dakota to the National Forest campgrounds of California to Amazon s CamperForce program in Texas employers have discovered a new low cost labor pool made up largely of transient older Americans Finding that social security comes up short often underwater on mortgages these invisible casualties of the Great Recession have taken to the road by the tens of thousands in late model RVs travel trailers and vans forming a growing

community of nomads On frequently traveled routes between seasonal jobs Jessica Bruder meets people from all walks of life a former professor a McDonald s vice president a minister a college administrator and a motorcycle cop among many others including her irrepressible protagonist a onetime cocktail waitress Home Depot clerk and general contractor named Linda May In a secondhand vehicle she christens Van Halen Bruder hits the road to get to know her subjects more intimately Accompanying Linda May and others from campground toilet cleaning to warehouse product scanning to desert reunions then moving on to the dangerous work of beet harvesting Bruder tells a compelling eye opening tale of the dark underbelly of the American economy one that foreshadows the precarious future that may await many more of us At the same time she celebrates the exceptional resilience and creativity of these quintessential Americans who have given up ordinary rootedness to survive Like Linda May who dreams of finding land on which to build her own sustainable Earthship home they have not given up hope
