Minorities, Modernity and the Emerging Nation G. van Klinken, 2021-09-13 This book examines the development of Indonesian nationalism from the viewpoint of a minority the urban Christian elite Placed between the Indonesian nationalist promise of freedom and the equally Christian Dutch colonial promise of modernity their experience of late colonialism was filled with dilemma and ambiguity Rather than describe dry institutions this study traces the lives of five politically active Indonesian Christians both Catholic and Protestant spanning the late colonial Japanese occupation and early independence periods Amir Sjarifoeddin Bishop Soegijapranata Kasimo Moelia and Ratu Langie For most of them the main problem was not so much the protest against colonialism but the transition to more modern forms of political community Their status as a religious minority and as urban middle class migrants out of their traditional communities made them more aware that achieving moral consensus was problematic This book should be of interest to students of Indonesian history as well as those studying the history of Third World nationalism and the history of Christian missions

Pols, 2018-08-09 Hans Pols proposes a new perspective on the history of colonial medicine from the viewpoint of indigenous physicians. The Indonesian medical profession in the Dutch East Indies actively participated in political affairs by joining and leading nationalist associations, by publishing in newspapers and magazines, and by becoming members of city councils and the colonial parliament. Indonesian physicians were motivated by their medical training, their experiences as physicians, and their subordinate position within the colonial health care system to organise, lead, and join social, cultural, and political associations. Opening with the founding of Indonesia's first political association in 1908 and continuing with the initiatives of the Association of Indonesian Physicians, Pols describes how the Rockefeller Foundation's projects inspired the formulation of a nationalist health programme. Tracing the story through the Japanese annexation, the war of independence, and independent Indonesia, Pols reveals the relationship between medicine and decolonisation and the role of physicians in Asian history.
