What Are Universities For

Leszek Kołakowski

What Are Universities For:

What are Universities For? Stefan Collini, 2012-02-23 Across the world universities are more numerous than they have ever been yet at the same time there is unprecedented confusion about their purpose and scepticism about their value What Are Universities For offers a spirited and compelling argument for completely rethinking the way we see our universities and why we need them Stefan Collini challenges the common claim that universities need to show that they help to make money in order to justify getting more money Instead he argues that we must reflect on the different types of institution and the distinctive roles they play In particular we must recognize that attempting to extend human understanding which is at the heart of disciplined intellectual enquiry can never be wholly harnessed to immediate social purposes particularly in the case of the humanities which both attract and puzzle many people and are therefore the most difficult subjects to justify At a time when the future of higher education lies in the balance What Are Universities For offers all of us a better deeper and more enlightened understanding of why universities matter to everyone

Speaking of Universities Stefan Collini, 2017-03-28 A devastating analysis of what is happening to our academia In recent decades there has been an immense global surge in the numbers both of universities and of students In the UK alone there are now over 140 institutions teaching more subjects to nearly 2.5 million students New technology offers new ways of learning and teaching Globalization forces institutions to consider a new economic horizon At the same time governments have systematically imposed new procedures regulating funding governance and assessment Universities are being forced to behave more like business enterprises in a commercial marketplace than centres of learning In Speaking of Universities historian and critic Stefan Collini analyses these changes and challenges the assumptions of policy makers and commentators He asks does marketization threaten to destroy what we most value about education does this new era of accountability distort what it purports to measure and who does the modern university belong to Responding to recent policies and their underlying ideology the book is a call to focus on what is actually happening and the clichés behind which it hides an incitement to think again think more clearly and then to press for something better

What are Universities For? John Wolfenden (Baron Wolfenden.), 1952 Re-Purposing Universities for Sustainable Human Progress Iain Stewart, Victoria Hurth, Stephen Sterling, 2022-03-31 What are Universities For? Leszek

Kořakowski, 1997 *What Is College For? The Public Purpose of Higher Education* Ellen Condliffe Lagemann, Harry Lewis, 2015-04-17 At a time when higher education attendance has never felt more mandatory for career success and economic growth the distinguished contributors to this provocative collection ask readers to consider the civic mission of higher education as equally vital to the nation's well-being Should higher education serve a greater public interest In what ways should colleges and universities be asked to participate in public controversies What should we expect institutions of higher education to contribute to the development of honesty and ethical judgment in the civic sphere What should colleges do to foster greater intellectual curiosity and aesthetic appreciation in their students and communities and why is this
