

Environmental Theology?

JOHN HART

What Are They Saying About Environmental Theology

Osunkwo Jude Thaddeus Ikenna

What Are They Saying About Environmental Theology:

What are They Saying about Environmental Theology? John Hart, 2004 This book offers a comprehensive analysis of Catholic teachings on environmental themes by exploring official statements from Rome and the bishops of the Americas as well as from contemporary visionary theologians p 4 cover

The Wiley Blackwell Companion to Religion and Ecology John Hart, 2017-03-24 In the face of the current environmental crisis which clearly has moral and spiritual dimensions members of all the world's faiths have come to recognize the critical importance of religion's relationship to ecology The Wiley Blackwell Companion to Religion and Ecology offers a comprehensive overview of the history and the latest developments in religious engagement with environmental issues throughout the world Newly commissioned essays from noted scholars of diverse faiths and scientific traditions present the most cutting edge thinking on religion's relationship to the environment Initial readings explore the ways traditional concepts of nature in Christianity Judaism Islam Buddhism and other religious traditions have been shaped by the environmental crisis Readings then address the changing nature of theology and religious thought in response to the challenges of protecting the environment Various conceptual issues and themes that transcend individual traditions climate change bio ethics social justice ecofeminism and more are then analyzed before a final section examines some of the immediate challenges we face in caring for the Earth while looking to the future of religious environmentalism Timely and thought provoking Companion to Religion and Ecology offers illuminating insights into the role of religion in the ongoing struggle to secure the future well being of our natural world With a foreword by Ecumenical Patriarch Bartholomew I and an Afterword by John Cobb

God and the Human Environment Osunkwo Jude Thaddeus Ikenna, 2015-07-02 God and the Human Environment Catholic Principles of Environmental Stewardship as a Template for Action in Nigeria brings into conversation the Church's theological reflection on the mandate to care for God's creation and the circumstances of the environment in Nigeria In vivid terms and with systemic thinking Fr Jude Osunkwo a theologian who specializes in Environmental Studies and Pastoral Catechesis explores the biblical theological magisterial and doctrinal bases that underlie a faithful response to contemporary environmental challenges After setting the stage with a summation of the issues and a survey of significant ecclesiastical statements on the topic of the environment God and the Human Environment addresses Catholic theological principles of stewardship Christian responsibility and the ethics of development Then the discussion turns to the environment of Nigeria assessing its current state and reviewing the causes and consequences of environmental challenges before proposing pastoral responses for the Church Finally some chapters address likely developments in Nigeria and the Church An extensive bibliography and several appendices provide additional support God and the Human Environment is a rigorously researched and passionately presented exploration of the issues growing out of the environmental circumstances Nigerians currently face Whether you live in Nigeria or count yourself as a member of the Catholic Church and live somewhere else God and the Human Environment explores a topic that promises to make a

difference in your life and to protect the part of the environment that God has created for you to tend Early Ecotheology and Joseph Sittler Panu Pihkala, 2017 When did Christians begin to address environmental questions What can be learned from these pioneering thinkers This study reveals that between 1910 and 1954 many theologians called for responsibility towards nature The focal point is the work of Joseph Sittler 1904 1987 an American Lutheran and ecumenical theologian The role of these early ecotheologians is discussed in relation to environmental history and education The findings show that ecotheology was not as strongly separated from other environmentalism as it was after the 1960s Series Studies in Religion and the Environment Studien zur Religion und Umwelt Vol 12 Subject Religious Studies Environmental Studies Ecotheology Joseph Sittler **Sacramental Commons** John Hart, 2006-07-27 The increasing awareness of environmental issues as ultimately moral issues has led to the intersection of religion and environment Sacramental Commons presents a unique way of looking at this topic by relating the Christian word sacrament signs of divine presence to the term commons shared place and shared goods among people and between people and the natural world suggesting that local natural settings and local communities can be a source for respect and compassion Sacramental Commons uses Earth oriented biblical teachings and ideas from such thinkers as Hildegard St Francis John Muir and Black Elk to provide insights about divine immanence in creation human commitments to creation and human accountability to the Spirit Earth and biotic community It extends the concept of natural rights beyond humans to include all nature and affirms intrinsic value in ecosystems in whole and in part Sacramental Commons declares that the Earth commons and its goods should be shared equitably by human communities and individuals living in interdependent relationships with other members of the community of life It suggests essential values that will stimulate care for the commons and embodies them in principles of an innovative Christian Ecological Ethics

Sacramental Commons John Mason Hart, Leonardo Boff, Thomas Berry, 2006-07-27 The increasing awareness of environmental issues as ultimately moral issues has led to the intersection of religion and environment Sacramental Commons presents a unique way of looking at this topic by relating the Christian word sacrament signs of divine presence to the term commons shared place and shared goods among people and between people and the natural world suggesting that local natural settings and local communities can be a source for respect and compassion Sacramental Commons uses Earth oriented biblical teachings and ideas from such thinkers as Hildegard St Francis John Muir and Black Elk to provide insights about divine immanence in creation human commitments to creation and human accountability to the Spirit Earth and biotic community It extends the concept of natural rights beyond humans to include all nature and affirms intrinsic value in ecosystems in whole and in part Sacramental Commons declares that the Earth commons and its goods should be shared equitably by human communities and individuals living in interdependent relationships with other members of the community of life It suggests essential values that will stimulate care for the commons and embodies them in principles of an innovative Christian Ecological Ethics **Christian Faith and the Environment** Brennan R. Hill, 2007-03-16 Although the

environmental crisis has been recognized as an international threat Christian attempts to reconcile their religious traditions and the earth are just beginning Christian Faith and the Environment challenges churches to take a stand for environmental concerns Hill explores how twentieth century theologians such as Karl Rahner Bernard Lonergan and Pierre Teilhard de Chardin have taught Christians to build bridges between Christianity and creation Examining sacramental rites church documents and feminist theological insights on ecology Hill outlines a Christian environmental spirituality and traces the ethical challenges posed by our new awareness of our environment Religion and the Environment Roger S. Gottlieb, 2010 In the last two decades a new form of religiously motivated social action and a virtually new field of academic study each based in recognition of the connections between religion and humanity's treatment of the environment have developed Interactions between religion and environmental concern have been manifest in the explosive growth of ecotheological writings institutional commitment by organized religions and environmental activism explicitly oriented to religious ideals Clergy throughout the world in virtually every denomination have received word from leaders of their religion that the environment no less than sexuality poverty or war and peace is now a basic and compelling religious matter Out of this confrontation have been born vital new theologies based in the recovery of marginalized elements of tradition profound criticisms of the past and ecologically oriented visions of God the Sacred the Earth and human beings Theologians from every religious tradition along with dozens of non denominational spiritual writers have confronted world religions past attitudes towards nature In the realm of institutional commitment public statements and actions by organized religions have grown dramatically In the context of political action throughout the U S and the world religiously oriented groups take part in environmentally oriented political action from lobbying and consciousness raising to activist demonstrations and civil disobedience This collection serves as a comprehensive introduction overview and in depth account of these exciting new developments The four volumes cover virtually every aspect of the field from theological change and institutional commitment to innovation in liturgy from new ecumenical connections among different religions and between religion science and environmental movements from religious participation in environmental politics to an account of the global social and political contexts in which religious environmentalism has unfolded The Spirit of Sustainability Willis Jenkins, Whitney Bauman, 2009-11-01 The Spirit of Sustainability helps readers navigate the moral worlds and ethical concepts and social and religious practices related to sustainability In collaboration with the Forum on Religion and Ecology an established network of leading scholars it explores a wide range of topics and perspectives from the promise and problems of approaching sustainability through global and indigenous religions to major theories in philosophy and environmental ethics and professional practices and social movements This volume presents the various goals of sustainability ecological integrity economic health human dignity fairness to the future and social justice and provides a framework for reasoning through many interrelated environmental challenges for both current and future generations

Encyclopedia of Religion in America Charles H. Lippy, Peter W. Williams, 2010 Explores the origins development influence and interrelations of the many faiths practiced in North America including major world religions and emerging sects cults and movements

Catholic Moral Theology in the United States Charles E. Curran, 2008 In this magisterial volume Charles E Curran surveys the historical development of Catholic moral theology in the United States from its 19th century roots to the present day He begins by tracing the development of pre Vatican II moral theology that with the exception of social ethics had the limited purpose of training future confessors to know what actions are sinful and the degree of sinfulness Curran then explores and illuminates the post Vatican II era with chapters on the effect of the Council on the scope and substance of moral theology the impact of *Humanae vitae* Pope Paul VI's encyclical condemning artificial contraception fundamental moral theology sexuality and marriage bioethics and social ethics Curran's perspective is unique For nearly 50 years he has been a major influence on the development of the field and has witnessed first hand the dramatic increase in the number and diversity of moral theologians in the academy and the Church No one is more qualified to write this first and only comprehensive history of Catholic moral theology in the United States

Ecology at the Heart of Faith Denis Edwards, 2006 In a world born of the big bang Edwards shows that humanity and the world are together being made into the image of God The heart of faith is an ecological communion that holds together and grows in love toward the fullness of life imaged in the Resurrection of Jesus Denis Edwards helps the general reader the preacher the spiritual director the student and the theologian tear down the walls that too often separate mysticism theology prophecy poetry and science Book jacket

Judaism, Environmentalism, and the Environment Manfred Gerstenfeld, 1998

What are They Saying about Environmental Ethics? Pamela Smith, 1997 An overview of the major voices and the major schools of thought in contemporary environmental ethics deep ecology ecofeminism animals rights environmental holism liberation ecotheology and various approaches to eco ethical questions

Religion Coming of Age Roy Wood Sellars, 1928

Religion and the Environment: Religious environmentalism in action Roger S. Gottlieb, 2010 In the last two decades a new form of religiously motivated social action and a virtually new field of academic study each based in recognition of the connections between religion and humanity's treatment of the environment have developed Interactions between religion and environmental concern have been manifest in the explosive growth of ecotheological writings institutional commitment by organized religions and environmental activism explicitly oriented to religious ideals Clergy throughout the world in virtually every denomination have received word from leaders of their religion that the environment no less than sexuality poverty or war and peace is now a basic and compelling religious matter Out of this confrontation have been born vital new theologies based in the recovery of marginalized elements of tradition profound criticisms of the past and ecologically oriented visions of God the Sacred the Earth and human beings Theologians from every religious tradition along with dozens of non denominational spiritual writers have confronted world religions past attitudes towards nature In the realm of institutional

commitment public statements and actions by organized religions have grown dramatically In the context of political action throughout the U S and the world religiously oriented groups take part in environmentally oriented political action from lobbying and consciousness raising to activist demonstrations and civil disobedience This collection serves as a comprehensive introduction overview and in depth account of these exciting new developments The four volumes cover virtually every aspect of the field from theological change and institutional commitment to innovation in liturgy from new ecumenical connections among different religions and between religion science and environmental movements from religious participation in environmental politics to an account of the global social and political contexts in which religious environmentalism has unfolded
