An Introduction to the Theory of Knowledge

LOUIS P. POJMAN

What Can We Know Pojman

Joseph D. Wooddell

What Can We Know Pojman:

What Can We Know? Louis P. Pojman, 1995-01 Compact yet more comprehensive than similar texts WHAT CAN WE KNOW analyzes the central topics of truth justification ranging from skepticism to religious belief Written in the author's friendly and conversational style without unnecessary jargon the text makes the subject matter more accessible and inviting to students

The Beauty of the Faith Joseph D. Wooddell, 2010-09-23 Nearly everyone finds beauty compelling so Christian apologists should devise ways to present an aesthetic Christian apologetic Nearly all apologists admit that the beauty of a life well lived and the beauty of the Christian community along with the use of media and the arts are not only helpful for apologetics but essential in a postmodern culture In fact it is frustrating to see how many apologists mention the need for such an approach but go on devoting most of their energies to traditional approaches This book is different It clearly shows the pros and cons of traditional approaches and offers a fresh perspective as well arguing that beauty is the most compelling apologetic and suggesting ways to implement such an approach It demonstrates how Western culture arrived in its current unfortunate situation and uses both Scripture and figures like Athenagoras and Jonathan Edwards to challenge current views on apologetics

Knowing God as an Evangelical Dan-Adrian Petre, 2023-04-26 In the present polyphony of evangelical theological epistemology there are several authoritative approaches Yet the evangelical emphasis on sola scriptura demands that theological epistemology be subjected to the biblical canon In this book Dan Adrian Petre argues for a canonically derived theological epistemological framework that may foster a fuller understanding of theological knowledge formation within evangelicalism Specifically he explores some representative evangelical voices to identify the reasons for the contemporary epistemological variance Petre then uses a canonical epistemological methodology to outline a biblically based framework In exploring how the Scripture conceptualizes the formation of theological knowledge the book uses cognitive linguistics to grasp the conceptual meaning of the theological knowledge formation in the Bible using prototypical case studies The resulting epistemological implications outline a minimal epistemological model derived from the biblical canon Using this vantage point the author assesses the contemporary evangelical epistemological dissonance as a means of indicating a way forward for a canonical epistemological attunement

Relativism Francis J. Beckwith, Gregory Koukl, 1998-10 A critique of moral relativism the belief that there exists no objective moral standards that apply to every place person and time

Sun Tzu and the Rise of China Southern Jameson West, 2020-12-30 Herein the writer discusses the present rise of China from looking at a specific critical statement made by Sun Tzu in his ancient treatise The Art of War The writer builds on this one particular quote in such a way as to obtain a synthesis for why Mainland China needs so desperately to bring back Taiwan back into the fold Mainland China has for decades claimed that Taiwan is a renegade province and nothing more Mainland China hopes and works desperately on a round the clock daily basis in order to try to convince the rest of the world that this in fact is the case Because of the mainland's unceasing rhetoric often the rest of the world isn't

aware of the true state of affairs as on the contrary all Chinese in the world are that in fact Taiwan because of its democratic and open society it therefore is an absolute threat to the state security of mainland China In fact many of Taiwan s open policies date back to the Japanese control of Taiwan from the years of 1895 until the end of WWII This fact is something that mainland China refuses to officially accept and will without hesitation vehemently deny However everyone who knows even some history and has travelled to Taiwan and spent time there can easily figure out The writer has seen it for himself Systemics and reductionism are discussed as part of the analytical framework of this synthesis using Sun Tzu s theory as per several noted writers on the theories of International Relations Mention will be made of how this present mainland policy has in fact seriously eroded the once very sound infrastructure that was once the fundamental social fabric and framework for Hong Kong leaving many Hong Kong people in serious doubt for their future Ultimately all of this gets put on the front door of the U S A whose position in the world is by this very policy further under an even greater threat Can China out flank the USA in places such as the Pacific and continents such as Africa The outcome remains to be seen But this book will try to consider many of the possible scenarios Notwithstanding what also gets mentioned is the concept of Entropy in trying to analyze international political activity Certain concepts such as the entropy of mixing are use to speculate that historical events cannot easily be stopped once political momentum and policies are put into place The power of the coalition in game theory Insanity Jonah Haddad,2013-11-01 Have you seen such men peculiar raving foam mouthed and straitjacketed throwing themselves mercilessly at white padded walls Such men are said to be insane But there is more to insanity than the images depicted in film and planted in our minds by popular media Insanity is a condition that affects us all Unsoundness of mind disrupts our ability to think clearly and to form knowledge about the world Our understanding is dangerously incomplete and our minds are corrupt We are all insane How then can we ever hope to know our world Is it possible to form justified true beliefs about anything What possibility if any do we have of escaping this condition of madness that keeps us from the light of knowledge In *Insanity* Jonah Haddad explores these very questions by introducing the main problems of the theory of knowledge and by offering a response to our madness a response grounded in God the ultimate Knower

Epistemology Richard Feldman,2003 For courses in Epistemology Introduction to contemporary epistemology Content is organized around The Standard View the view that we do know most of the things reflective common sense tells us we know Skepticism is discussed as only one of several objections to the view The Cumulative Book Index ,1996 A world list of books in the English language **Doing Philosophy for Wisdom in Islamic Education** Wan Mazwati Wan Yusoff,Rosnani Hashim,2022 *In the Socratic Tradition* Tziporah Kasachkoff,1998 Twenty seven essays explore how to teach a variety of subjects in philosophy General topics such as teaching introductory courses improving students comprehension of philosophy texts and improving student papers are examined Specific fields such as the study of ethics aesthetics philosophy of religion and the history of philosophy are accorded separate sections and strategies for explaining
