

An illustration in a woodcut style showing a group of people inside a large, brown, conical tent. An American flag flies from a pole at the top left. Several people are visible: a man in a light shirt and dark pants stands in the center; a woman in a dark dress stands to the right; another woman in a blue dress is seated on the right; and a man in a dark coat and hat is seated in the foreground. The background shows a dark, rocky landscape.

SECOND EDITION

Women & Men ON THE Overland Trail

NB JOHN MACK FARAGHER

Women And Men On The Overland Trail Revised Edition

Laura E. Woodworth-Ney

Women And Men On The Overland Trail Revised Edition:

Women and Men on the Overland Trail John Mack Faragher, 2001 There is also a new supplemental bibliography BOOK JACKET **History of Nebraska, Fourth Edition** James C. Olson, Ronald C. Naugle, John J. Montag, 2014-12-31 History of Nebraska was originally created to mark the territorial centennial of Nebraska and then revised to coincide with the statehood centennial This one volume history quickly became the standard text for the college student and reference for the general reader unmatched for generations as the only comprehensive history of the state This fourth edition revised and updated preserves the spirit and intelligence of the original Incorporating the results of years of scholarship and research this edition gives fuller attention to such topics as the Native American experience in Nebraska and the accomplishments and circumstances of the state s women and minorities It also provides a historical analysis of the state s dramatic changes in the past two decades *Women in the American West* Laura E. Woodworth-Ney, 2008-04-03 This engaging narrative synthesizes more than 20 years of historical writing on the history of women in the American West Twenty years after many Western historians first turned their attention toward women *Women in the American West* synthesizes the development of women s history in the region introduces readers to current thinking on the real experiences of Western women and explores their influence on the course of expansion and development since the 19th century *Women in the American West* offers vivid portrayals of women as pioneers prostitutes teachers disguised soldiers nurses entrepreneurs immigrants and ordinary citizens caught up in extraordinary times Organized chronologically each chapter emphasizes important themes central to gender and women s history including women s mobility women at home wage labor immigration marriage political participation and involvement in wars at home and abroad With this revealing volume readers will see that women had a far more profound effect on the course of history in the Western United States than is commonly thought *Women in Pacific Northwest History* Karen J. Blair, 2016-06-01 This new edition of Karen Blair s popular anthology originally published in 1989 includes thirteen essays eight of which are new Together they suggest the wide spectrum of women s experiences that make up a vital part of Northwest history **Frontier Women** Julie Jeffrey, 1998-02-28 The classic history of women on America s frontiers now updated and thoroughly revised FRONTIER WOMEN is an imaginative and graceful account of the extraordinarily diverse contributions of women to the development of the American frontier Author Julie Roy Jeffrey has expanded her original analysis to include the perspectives of African American and Native American women *The Gendered West* Gordon Morris Bakken, Brenda Farrington, 2013-09-13 First Published in 2001 This anthology of western history articles emphasizes the New Western History that emerged in the 1980s and adds to it a heavy dose of legal history a field frequently ignored or misunderstood by the New Western historians From first contact American Indians knew that Europeans did not understand the gendered nature of America Confusion regarding the role of women within tribes and bands continued from first contact well into the late nineteenth century The journal articles that follow give readers a true

sense of the gendered West Racial and ethnic heritage played a role in female experience whether Hispanic Japanese or Irish Women s work was part western history but women did not confine themselves to plow handles or brothels Women were very much a part of most occupations or in the process of breaking down barriers of access They worked in the fields for wages as well as for family welfare and prosperity Women demanded access to the professions whether teaching or law accounting or medicine The process of eliminating barriers varied in time and space but the struggle was constant Yet the story of women in polygamous Utah or Idaho was different and an integral part of the fabric of western history Because of their beliefs and practices these women suffered at the hands of the federal government and persevered **Iowa History Reader** Marvin Bergman,2008-03-15

In 1978 historian Joseph Wall wrote that Iowa was still seeking to assert its own identity It has no real center where the elite of either power wealth or culture may congregate Iowa in short is middle America In this collection of well written and accessible essays originally published in 1996 seventeen of the Hawkeye State s most accomplished historians reflect upon the dramatic and not so dramatic shifts in the middle land s history in the nineteenth and twentieth centuries Marvin Bergman has drawn upon his years of editing the Annals of Iowa to gather contributors who cross disciplines model the craft of writing a historical essay cover more than one significant topic and above all interpret history rather than recite it In his preface to this new printing he calls attention to publications that begin to fill the gaps noted in the 1996 edition Rather than survey the basic facts the essayists engage readers in the actual making of Iowa s history by trying to understand the meaning of its past By providing comprehensive accounts of topics in Iowa history that embrace the broader historiographical issues in American history such as the nature of Progressivism and Populism the debate over whether women s expanded roles in wartime carried over to postwar periods and the place of quantification in history the essayists contribute substantially to debates at the national level at the same time that they interpret Iowa s distinctive culture **Gender and Generation on the Far Western Frontier** Cynthia Culver Prescott,2022-05-10

As her family traveled the Oregon Trail in 1852 Mary Ellen Todd taught herself to crack the ox whip Though gender roles often blurred on the trail families quickly tried to re establish separate roles for men and women once they had staked their claims For Mary Ellen Todd who found a secret joy in having the power to set things moving this meant trading in the ox whip for the more feminine butter churn In Gender and Generation on the Far Western Frontier Cynthia Culver Prescott expertly explores the shifting gender roles and ideologies that countless Anglo American settlers struggled with in Oregon s Willamette Valley between 1845 and 1900 Drawing on traditional social history sources as well as divorce records married women s property records period photographs and material culture Prescott reveals that Oregon settlers pursued a moving target of middle class identity in the second half of the nineteenth century Prescott traces long term ideological changes arguing that favorable farming conditions enabled Oregon families to progress from accepting flexible frontier roles to participating in a national consumer culture in only one generation As settlers children came of age participation in this new culture of

consumption and refined leisure became the marker of the middle class Middle class culture shifted from the first generation's emphasis on genteel behavior to a newer genteel consumption This absorbing volume reveals the shifting boundaries of traditional women's spheres the complicated relationships between fathers and sons and the second generation's struggle to balance their parents ideology with a changing national sense of class consciousness *So Rugged and Mountainous* Will Bagley, 2012-10-09 The story of America's westward migration is a powerful blend of fact and fable Over the course of three decades almost a million eager fortune hunters pioneers and visionaries transformed the face of a continent and displaced its previous inhabitants The people who made the long and perilous journey over the Oregon and California trails drove this swift and astonishing change In this magisterial volume Will Bagley tells why and how this massive emigration began While many previous authors have told parts of this story Bagley has recast it in its entirety for modern readers Drawing on research he conducted for the National Park Service's Long Distance Trails Office he has woven a wealth of primary sources personal letters and journals government documents newspaper reports and folk accounts into a compelling narrative that reinterprets the first years of overland migration Illustrated with photographs and historical maps *So Rugged and Mountainous* is the first of a projected four volume history *Overland West The Story of the Oregon and California Trails* This sweeping series describes how the Road across the Plains transformed the American West and became an enduring part of its legacy And by showing that overland emigration would not have been possible without the cooperation of Native peoples and tribes it places American Indians at the center of trail history not on its margins **The Important Things of Life** Dee Garceau, 2022-01-07 Sweetwater County lies in southwestern Wyoming and has stood as a significant symbolic geography for the new Western Woman's history As the county in which Elinore Pruitt Stewart *Letters of a Woman Homesteader* Nebraska 1990 said she proved up her homestead in 1913 it is a fitting locale for the study of western gender relations *The Important Things of Life* examines women's work and family lives in Sweetwater County in the late nineteenth and early twentieth centuries The 1880's discovery of coal caused a population boom attracting immigrants from numerous ethnic groups At the same time liberalized homestead law drew sheep and cattle ranchers Dee Garceau demonstrates how survival on the ranching and mining frontier heightened the value of group cooperation in ways that bred conservative attitudes toward gender Augmented by reminiscences and oral histories Garceau traces the adaptations that broadened women's work roles and increased their domestic authority Hers is a compelling portrait of the American West as a laboratory of gender role change in which migration relocation and new settlement underscored the development of new social identities
