Yes We Can White Racial Framing And The 2008 Presidential Campaign:

Yes We Can? Adia Harvey Wingfield, Joe R. Feagin, 2010 This book offers one of the first sociological analyses of Barack Obama's historic 2008 campaign for the presidency of the United States. Elaborating on the concept of the white racial frame, Harvey Wingfield and Feagin assess the ways racial framing was deployed by principal characters in the 2008 election. This book counters many commonsense assumptions about race politics and society, particularly the idea that Obama's election ushered in a post-racial era. Readers will find this book uniquely valuable because it relies on sound sociological analysis to assess numerous events and aspects of this historic campaign.

Yes We Can? Adia Harvey-Wingfield, Joe Feagin, 2013-01-17 The first edition of this book offered one of the first social science analyses of Barack Obama's historic electoral campaigns and early presidency. In this second edition, the authors extend that analysis to Obama's service in the presidency and to his second campaign to hold that presidency. Elaborating on the concept of the white racial frame, Harvey Wingfield and Feagin assess in detail the ways white racial framing was deployed by the principal characters in the electoral campaigns and during Obama's presidency. With much relevant data, this book counters many commonsense assumptions about U.S. racial matters, politics, and institutions, particularly the notion that Obama's presidency ushered in a major post-racial era. Readers will find this fully revised and updated book distinctively valuable because it relies on sound social science analysis to assess numerous events and aspects of this historic campaign.

The White Racial Frame Joe R. Feagin, 2013-08-21 In this book, Joe Feagin extends the systemic racism framework in previous Routledge books by developing an innovative concept: the white racial frame. Now four centuries old, this white racial frame encompasses not only the stereotyping, bigotry, and racist ideology emphasized in other theories of race, but also the visual images, array of emotions, sounds of accented language, interlinking interpretations and narratives, and inclinations to discriminate that are still central to the frame's everyday operations. Deeply imbedded in American minds and institutions, this white racial frame has for centuries functioned as a broad worldview, one essential to the routine legitimation, scripting, and maintenance of systemic racism in the United States. Here, Feagin examines how and why this white racial frame emerged in North America, how and why it has evolved socially over time, which racial groups are framed within it, how it has operated in the past and in the present for both white Americans and Americans of color, and how the latter have long responded with strategies of resistance that include enduring counter frames. In this new edition, Feagin has included much new interview material and other data from recent research studies on framing issues related to white, black, Latino, and Asian Americans, and on society generally. The book also includes a new discussion of the impact of the white frame on popular culture, including on movies, video games, and television programs, as well as a discussion of the white racial frame's significant impacts on public policymaking, immigration, the environment, health care, and crime and imprisonment issues.

Learning Race, Learning Place Erin N. Winkler, 2012-11-15 In an American society both increasingly diverse and increasingly segregated the signals children receive about race are more confusing than ever In this context how do children negotiate and make meaning of multiple and conflicting messages to develop their own ideas about race *Learning Race Learning Place* engages this question using in depth interviews with an economically diverse group of African American children and their mothers Through these rich narratives Erin N Winkler seeks to reorient the way we look at how children develop their ideas about race through the introduction of a new framework comprehensive racial learning that shows the importance of considering this process from children s points of view and listening to their interpretations of their experiences which are often quite different from what the adults around them expect or intend At the children s prompting Winkler examines the roles of multiple actors and influences including gender skin tone colorblind rhetoric peers family media school and especially place She brings to the fore the complex and understudied power of place positing that while children s racial identities and experiences are shaped by a national construction of race they are also specific to a particular place that exerts both direct and indirect influence on their racial identities and ideas
