Paperback

Jonn Mumford

Yoga And Psychoanalysis By Hummel Gnter Von 2014 Paperback:

Yoga and Psychoanalysis Anand C. Paranjpe, 2022-04-24 This book discusses the relevance of tracing back the course of individual development noted in psychoanalysis regression and in Patajali's Yoga prati prasava. Although Freud found the diagnostic benefits in tracing the history of the patient's early childhood experiences, he also recognized the influences of the history of civilization and evolution. He also viewed the regression to earlier history in a negative light. Ernst Kris, on the other hand, saw some benefits of regression. The nature and extent of the influence of Jewish mysticism on Freud is highly controversial, and scholars have pointed out the possible influence of Kabbalistic mysticism which held that enlightenment follows from going all the way back to the origin of human beings at the beginning of the cosmos. This view has an interesting parallel in Patajali's Yoga. This volume highlights these significant parallels in the Indian and the Western systems of knowledge in the study of human psychology and explores the need for their mutual understanding. It also examines converging trends in modern psychology to recognize the need for transcendence of ego in individuals. This book will be of immense interest to students, teachers, researchers, and practitioners of psychology, psychoanalysis, and Yoga Psychology. It will be of great interest to psychologists, counsellors, mental health professionals, clinical psychologists, yoga enthusiasts, and those interested in transpersonal psychology.

Yoga and Psychoanalysis A. C. Paranjpe, 2022 This book discusses the relevance of tracing back the course of individual development noted in psychoanalysis regression and in Patajali's Yoga prati prasava. Although Freud found the diagnostic benefits in tracing the history of the patient's early childhood experiences, he also recognized the influences of the history of civilization and evolution. He also viewed the regression to earlier history in a negative light. Ernst Kris, on the other hand, saw some benefits of regression. The nature and extent of the influence of Jewish mysticism on Freud is highly controversial, and scholars have pointed out the possible influence of Kabbalistic mysticism which held that enlightenment follows from going all the way back to the origin of human beings at the beginning of the cosmos. This view has an interesting parallel in Patajali's Yoga. This volume highlights these significant parallels in the Indian and the Western systems of knowledge in the study of human psychology and explores the need for their mutual understanding. It also examines converging trends in modern psychology to recognize the need for transcendence of ego in individuals. This book will be of immense interest to students, teachers, researchers, and practitioners of psychology, psychoanalysis, and Yoga Psychology. It will be of great interest to psychologists, counsellors, mental health professionals, clinical psychologists, yoga enthusiasts, and those interested in transpersonal psychology.

The Psychology of Yoga Georg Feuerstein, 2014-01-14 Psychoanalysis itself and the lines of thought to which it gives rise, said C. G. Jung, are only a beginner's attempt compared to what is an immemorial art in the East, by which he was referring to the millennia-old study of the mind found in Yoga. That tradition was hardly known in the West when the discipline of psychology arose in the nineteenth century, but with the passing of time, the common ground between Yoga and psychology has become ever more apparent. Georg

Feuerstein here uses a modern psychological perspective to explore the ways Hindu Buddhist and Jaina yogas have traditionally regarded the mind and how it works and shows how that understanding can enhance modern psychology in both theory and practice

Yoga and Psychoanalysis Günter von Hummel, 2010 This book offers a brief overview of the different types of Yoga and then provides a comparison with the modern science of psychology Laya Yoga as it was taught by Kirpal Singh 1894 1974 is a comprehensive physical and mental method and widely known in India and abroad A comparison is made with psychoanalysis especially in its form taught by J Lacan This study of western and eastern spiritual ways centers around so called FORMULA WORDS They each bear several meanings in one formulation and so correspond to the scientific term unconscious as well as to the exercises of Yoga This comparative study culminates in a independent and new method which can connect East and West in an ideal way

Freud and Yoga Hellfried Krusche, T. K. V. Desikachar, 2014-12-02 Lessons from a great yoga master and an eminent psychoanalyst that explore what psychotherapy and yoga philosophy have in common Yoga philosophy and Freud's revolutionary approach to psychology could not have been developed in more different times places or cultural conditions And yet these two profound and dynamic systems of understanding human behavior emotions perception and what's essential in our existence have an astonishing amount to share What we learn by comparing their similarities as well as their differences can enhance how we comprehend our lives and our potential for change In Freud and Yoga the great yoga master T K V Desikachar and the eminent psychoanalyst Hellfried Krusche examine forty classic sayings or sutras from the vantage point of their respective disciplines Through clear candid conversations that draw on long experience and are illustrated by case studies from the clinic and the shala these two experts explain the concepts terms forces and processes in their traditions Therapists and patients yoga adepts and professionals and readers interested in psychology and spirituality will find this unique investigation fascinating enriching and useful In a time when Western and Eastern modalities have ever more to offer each other Freud and Yoga is a watershed work one that draws us closer to understanding our own nature and the deep workings of the human psyche

Jung and Yoga Judith Harris, 2001 This text looks at the parallels between yoga practice and Jungian analysis focusing on Jung's ideas as experienced through bodywork Previously hidden energy brings psyche and body together uniting them in sacred union that gives birth to a new consciousness
