If you like this book, write a review on Google Books. [Understanding Youth Football](#) Darrell S. Walker, 2000-12-20. Do you have a child currently playing youth football? Are you a parent with a child wanting to play football? Are you needing or wanting to learn the basics of youth football? Are you wanting to coach children's football? Are you just curious of what goes on in youth football? If the answer is YES to any of these questions, then this book is for you. Unlike many other books on football, this book was written to help parents and new coaches understand the basics of youth football. It contains all of the basic parts of youth football, starting with offensive concepts, detailed plays, defensive concepts, and special teams. All of the information within the book was written at a level for kids, parents, and coaches to understand and not overly complicated, as many football books are at the professional level. The information is explained in a very simplistic form, making it easy to learn. [Coaching Youth Football-6th Edition](#) American Youth Football, 2017-04-21. Coaching Youth Football with its field-tested information and advice will help you run your team with confidence. You'll find methods and tips for communicating with players, minimizing risk, and preventing injuries, providing basic first aid, planning and conducting practices, teaching techniques and tactics, coaching on game day, and keeping it all fun. [How To Coach Youth Football](#) HowExpert, John Seagroves, 2013-01-15. We hear the reports and see the video all too often: youth coaches and officials assaulted, fights breaking out at youth sporting events, and parents and

coaches losing control over what should be a child's game. It doesn't have to be that way. What we don't see are the thousands of youth football coaches who do it the right way, teaching the game and the ethos of the game to children who love to play. Coaching youth football can be one of the most exciting, exhilarating and rewarding experiences. It takes a tremendous amount of hard work and an ability to communicate with other coaches, players and parents, but there are few things to compare with watching young people compete and win or learn lessons that will help them for a lifetime. Teaching the game of football goes far beyond the white lines, beyond the techniques of blocking and tackling. Along with learning the fundamentals of the game, young people learn teamwork, sportsmanship, responsible leadership and the need to work hard and prepare to reach goals. To avoid being one of those trapped in a nightmare, a youth coach must master the ability to relate to both players and parents. Above all, a coach must communicate. It is important that parents trust the coach. After all, parents are submitting their child to a game that is by its very nature physically brutal. Parents need to trust that the coach will have the best interests of the team and their child in mind at all times. When those interests collide, parents need to know why a coach makes certain decisions and how that will affect their child. Along with communicating with adults, youth football coaches must be experts in understanding and relating to children. Youth football players have very little concept of the actual fundamentals of the game. They see a college or professional game on television and see long passes, breakaway runs or big hits and the thousands of people who cheer while players celebrate. This is far from the reality of the game. Coaches must be able to demonstrate and teach fundamentals. Big plays come out of the ability to be fundamentally sound, and being fundamentally sound takes hour upon hour of watching, listening and practicing. In the NFL and increasingly in college, success is defined by wins and losses. The bottom line is paramount. This isn't necessarily different at the youth level; the bottom line is simply wider. Wins and losses are important, and no one wants to play for a loser. But if a youth coach is successful, they create not only wins on the field, they also help to create joy in the hearts of children and parents, players who learn how to play and how to be leaders, and most of all, a successful youth coach gives players the building blocks to be successful in life.

About the Expert: John Seagroves has taught and coached at the middle school level for over a decade in eastern North Carolina. He and his wife Corrie live in Rocky Mount. They have one daughter, Elizabeth, who is an outstanding student and athlete in her own right. He has coached football in four different school systems. In that time, his football teams have compiled a 78.4 winning percentage. He has led football, softball and basketball teams to county and conference titles in the process. More importantly, he is proud of the overwhelming success his players have had in the classroom, many going on to study and earn college degrees at some of the most prestigious universities in the region. Mr. Seagroves would like to thank Coach Todd Brewer of Nash Central High School for his contributions on offensive philosophy for youth football and on how to establish expectations in your program. Coach Brewer and Mr. Seagroves spent several years coaching together, and much of the information in this book evolved from that partnership.
